DEAN

AFTER 40 YEARS OF EXISTENCE, today we are standing proud as one of the best, most renowned institutions associated with sports and physical activity. An institution which is an engine of probably the most important biological need of the human being - movement. This higher education institution

promotes physical and mental health through physical activity and sports. For 40 years we have been producing staff who raise the awareness of exercise, points out the benefits of its systemic application. The students are our strength and power, which through the educational process are our potential future teachers, thus each and every one of us has the mission to learn the true Olympic values, necessary for the successful realization of the teaching of physical and health education at all levels - from elementary to university education.

Sports, physical activity and science are inseparable. All the staff produced by the Faculty, without false modesty, are figures with integrity.

The profile professor of physical education has a mission, goal, task, and responsibility to engage in the entire period of development of children, of the adolescent or the human being in general, and to encourage, develop and create sports culture and sports socialization. To create, through sport, individuals with positive values and qualities, individuals with self-confidence, perseverance, endurance and discipline. To create a sense of value, honesty and belonging to a group, to the nation, while building one's own identity.

A graduated coach is a complex person, just as the multidisciplinary character of the Faculty. The coach is a role model for all future sports stars. Not everyone can be a coach, our coach is educated, has social intelligence, self-control and emotional stability, simply said he is a second mother or a father to our most precious, i.e. our children.

The sports manager is a person who makes decisions on planning, organizing, guiding, creating, motivating, communicating, controlling as well as evaluating, in order to realize the highly set goals. He points to the professionalism, dedication and involvement of the best experts in order to reach the top. There is no other path and therefore sports science says that sport is a privilege of the finest PERSONS.

The sports journalist is the spiritual leader of athletes; he, in a word, sentence or article, either motivates the athlete or encourages him to become more self-aware. He follows each step of the athlete, and is directly related to the sporting results and his psycho -physical development.

In order to create sports stars, the best professional scientific staff are necessary. In order to encourage many people to exercise, again experts are needed. In order to develop programs which athletes are to follow and will be healthy, happy, and content with, again experts are needed.

Today, with full responsibility as the head of this institution, I claim that the people, that is, the professors and the students are the embodiment of the Faculty. Inadequate spatial conditions did not prevent these experts from being their best. These are true teachers, since their love towards sports is sincere and it simply is their life, everything else is unacceptable. This is sport, this is physical activity. That is why sport is a challenge for each individual.

Finally, to summarize, sport is a social activity conducted fairly and righteously, an activity which enriches the community and the friendship between the nations.

Sport is an activity that offers individual opportunities for self-education, self-expression and a feeling of complete fulfillment; personal achievements, acquisition of skills and demonstration of abilities; social impact, pleasure, good health and well-being.

Sports promote participation, integration, and responsibility towards society and it contributes for the development of the community.

Sports and physical activity are an integral part of the culture of each nation.

And let us always be reminded of the slogan "Participate in sports to be healthy and happy". A healthy nation is achieved through participation in sports, this is the only way through which one can reach their greatest peaks and heights.

Dean

Prof. PhD Lenche Aleksovska Velichkovska

"SS. CYRIL AND METHODIUS" UNIVERSITY - SKOPJE

RECTOR

The University of "Ss. Cyril and Methodius" in Skopje, is the first University in the Republic of Macedonia, which as a continuator of the tradition of Cyril and Methodius, throughout the period of its development, is worthy of respect, is constantly in the fight for proving and confirming the quality, transferring the creative energy of all generations of teaching-scientific and professional cadres to the generations of students who continually embed their knowledge in the foundations of the Republic of Macedonia.

The contribution of the University of "Ss. Cyril and Methodius" in that sense is immense. I would say invaluable. In order to achieve the desired goals, the contributions of the generations of highly educated cadres were vital, these are generations who have worked hard, are working hard, and in the future will continue to be engaged in the realization of the desired goal, that is, for the Republic of Macedonia to become a prosperous state.

The University of "St. Cyril and Methodius", as a superior institution of higher education, scientific-research and art, nurtures and develops its own traditional and national features, the Macedonian language, history, literature and culture, the cultural values of the ethnic communities in the Republic of Macedonia, and it organizes and develops scientific and applicative research work. It bares the image of a supreme, responsible and connected whole, with a common core of scholars and students, in which the universal values are nurtured, and where the role and authority of the University in their own country, as well as in the international community, is being confirmed and strengthened. The University of "Ss. Cyril and Methodius" in Skopje, as the first state university in the Republic of Macedonia, is

a national university that develops study programs in all scientific areas: social, technical, natural-mathematical, medical, biotechnical and arts, and aside at faculties, the research work also takes place at the independent public scientific institutes within the University. Today, the University is a higher education institution with 23 faculties, 5 scientific institutes, 4 public scientific institutions - associate members, 1 associate member - another higher education institution and 7 associate members - other organizations. The number of students studying at the higher education institutions is impressive, about 60,000 in first and second cycle studies, more than 700 foreign students, and there are over 1070 students enrolled in doctoral studies.

One of the members of the University of "St. Cyril and Methodius" in Skopje is also the Faculty of Physical Education, Sport and Health. A specialized higher education institution whose main function in the society is to produce staff not only for the needs of the education sector, but also for every possible part of social life. One of the basic goals through the process of creating educated staff in the field of physical education and sports is to nourish the feeling, the spirit, and the awareness among the wider population for production of healthy generations among the population.

The University of "Ss. Cyril and Methodius" in Skopje, wholeheartedly and through various forms and contents contributes and gives full support to the teaching-scientific and other staff engaged in this higher education institution with a purpose of quality performance and modernization of the educational process, in the direction of developing the sport, its mass acceptance and presentation among the domestic and international public.

The actions for fundamental changes in the core segments of the University's activity: modernization of teaching with new rules for studying, preparation of new study and course programs, opening of new profiles of highly professional staff, modernization of postgraduate studies, introduction of doctoral studies, organization of European studies, inclusion in international projects and programs, preparations for quality assurance and assessment in higher education for accreditation and evaluation of higher education institutions and recognition and affirmation of the Macedonian science, serve as acknowledgment for the continuous development and progress.

The University of "Ss. Cyril and Methodius" strives to preserve the hallmark of a supreme and connected whole, to be a common core of scientists and students, within which the universal values will be nurtured, and where its role shall be confirmed and strengthened. It has a rich history of development, filled with admirable results that are rooted in the overall development of the Republic of Macedonia.

The University of "St. Cyril and Methodius" in Skopje has a clear vision in its path for development, to create a developed European type of university which will always nurture and will carry its own traditional and national features. The new system that we are developing puts an obligation for us to respect and nurture our national values, as followers of the tradition of Cyril Methodius.

Rector

Prof. PhD. Nikola Jankulovski

Appreciating the 40-year tradition of the Faculty of Physical Education, Sport and Health within the "St. Cyril and Methodius" University in Skopje, it can be freely stated that it is the oldest and most renowned educational-scientific institution in the Republic of Macedonia from the area of kinesiology. The successful work of the Faculty since the 40-year period of its existence, was based primarily on the personnel potential, who managed to implement a bigger number of study programs in the first, second and third cycle of doctoral studies. In this context, the main imperative, that is, the mission of the Faculty is the promotion of the quality of educational services and the creation of quality and competitive personnel on the labor market in our country and abroad, and raising the educational level of the entire Macedonian population (of course, primarily within the domain of kinesiology).

The students are the foundation for the existence of every higher education institution, and in that sense they are of our Faculty. As equal members of the Academic Community, we continuously strive for them to take the right place and meaning. Our young colleagues are entirely treated as a value in which we unreservedly invest effort and knowledge. In doing so we are certain that after their graduation they will successfully represent our Faculty in all spheres of social life and they will be our best ambassadors. Lastly, I would like to congratulate all present and future students on the right choice of a higher education institution and wish them a successful academic life.

Throughout the historical development of the Faculty for Physical education, Sports, and Health, each employ, in his own unique way, has contributed something of his own. Everyone, in their own way, have left a mark. With great respect and gratitude, we honor and take pride in everyone from the past, alive and deceased, who are no longer at the Faculty. Each with their own work has colored the Faculty and has become a part of the general character of an environment which has been, is, and will be an honor to work in. Today, the Faculty and the general community remember the founders and the bearers of the work. To those who are no longer among us, we use the opportunity to bow down to them and to thank them for having had the pleasure and honor to work together and learn from them.

HISTORICAL DEVELOPMENT

This year, the Faculty of Physical Education, Sports, and Health celebrates its jubilee of 40 years of existence and work, years of success and continuous development.

After the Second World War, positive attitudes towards physical education, sports and other fields of physical culture were incorporated in the Constitutional provisions, which aimed to provide special care for the physical education of the people, especially the youth, for the purpose of increasing their health and working ability, as well as strengthening the defence power of the state (Article 36, Constitution of the SFRY, January 31, 1946).

Član 36

Država se stara za podizanje zdravlja naroda organizacijom i kontrolom zdravstvene službe, bolnica, apoteka, sanatorijuma, lečilišta i oporavišta i drugih zdravstvenih ustanova. Država vodi brigu o fizičkom vaspitanju naroda, naročito omladine, radi podizanja zdravlja i radne sposobnosti naroda kao i jačanja odbranbene moći države.

With the increasing number of schools, classes and pupils, the need for professional staff grew in parallel. The first step was made with the establishment of a four-year secondary school in Skopje. In 1950, by the initiative of the Committee for Physical Culture, the Government of the FR of Macedonia founded this school, based in DTV Partizan 1, which, for the beginning, consisted of one modest classroom, one office, and one sleeping room. The classes officially started in the school year 1950/1951 with 24 male students and female 2 students. Theoretical subjects were carried out in the premises of the high school Cvetan Dimov, and the practical lessons were performed in the DTV Partizan 1. It continues to operate as a school for physical culture on a different location in the settlement Crnice, with an increase in the infrastructure in terms of special-material needs. The name is changed to: physical education school "Metodija Mitevski – Brico".

This school, with dynamic changes, exists on the same premises even today.

Within the frames of the secondary school for physical education, the classes were started and realized by one full-time teacher (also the director of the school) and three freelance teachers.

The director Panche Pandilov is the first full-time teacher in the school. From the school year 1970/1971, teaching on practical subjects is carried out by professors in physical education. The fact that from the period of establishment to the school year 1967/1968, 668 students have graduated. With the introduction of the Law on Primary Education, the school ceases to prepare professional staff, and the graduates continue their education and development within the higher education institutions within the Republic and abroad.

To that end, in 1965, the Parliament of the FR of Macedonia adopted the Law on Establishing Higher Education School of Physical Education in Skopje. It was intended to cover the needs for successful realization of physical education instruction, organizing physical recreation in working organizations and teaching activities in social organizations for physical culture.

We can freely conclude that with the decision of the Higher Education School to be located in the premises of the physical education school "Metodija Mitevski – Brico", the special-material problems started to occur. The Higher Education School profiled staff in a period of a great lack of vocational staff, especially for the physical and health education classes. Having in mind that there was a lack of staff for the realization of classes within this same Higher Education School, in 1972, within the frames of the Faculty of Medicine in Skopje, a third degree course was established for Masters in Physical Education. Out of the three enrolled generations in these studies, 48 masters were produced, which were namely the basis for the successful operation of the Higher Education School. In other educational centers in Yugoslavia, a number of highly skilled professionals have been successfully trained.

The period from 1945 to 1977 was colored with the operation of the secondary school for physical education "Metodija Mitevski – Brico" and the Higher Education School of Physical Education in Skopje. At the beginning, around 620 teachers were registered, half of whom had only secondary education, and a certain number had no proper education at all. In the secondary schools out of around 300 employees, only 50 were with higher education, while the number of over 250 teachers with inadequate professional skills inspired the imperative to undertake measures for training high quality competitive staff.

In 1969, the document "Measures for improving the physical culture in FR of Macedonia" was created, on the basis of which the Parliament of the FR of Macedonia concluded that measures should be taken to improve the work of the Higher Education School and its transformation into a Faculty of Physical Education. The conclusion of the Executive Council of the Assembly was adopted in that direction by the Educational-Cultural and Republic council of the Assembly of the SR of Macedonia in 1971. The conclusion is related to the necessity of initiating a procedure for the transformation of the Higher Educational School of Physical Education in a Faculty of Physical Education.

The Committee on Physical Education prepared a material entitled "Material

and personnel conditions for physical education in secondary schools in the FR of Macedonia". The Executive Council of the Assembly of the FRM replied with a conclusion which stated: "In order to improve the qualification structure and provide sufficient number of staff for the needs of physical education, it is necessary to accelerate the consideration and adoption of the conception for the transformation of the Higher Educational School of Physical Education into a faculty for physical culture, in order to determine the dynamics of providing human and material conditions within the framework of the social development plan of the FR of Macedonia in the period from 1976 to 1980".

In the first half of 1977, the Committee for Physical Culture prepared a "Proposal for enacting a law for the transformation of the Higher Educational School of Physical Education in Skopje in a Faculty of Physical Education in Skopje". Following the procedure, on July 8, 1977, the Parliament of the FR of Macedonia adopted the "Law on Establishing a Faculty of Physical Education" (Official Gazette of the SRM No. 30 of 15 July 1977). What follows is the integral text:

Pursuant to Article 376, paragraph 1, line 6 of the Constitution of the Socialist Republic of Macedonia, the Presidency of the Socialist Republic of Macedonia issues a DECREE FOR PROMULGATION OF THE LAW ON THE ESTABLISHMENT OF THE FACULTY OF PHYSICAL CULTURE. The Law on the Establishment of a Faculty of Physical Culture, adopted by the Assembly of the Socialist Republic of Macedonia at the session of the Council of the Associated Labor, held on July 8, 1977, and the session of the Republican Community of Education, held on July 8, 1977, is promulgated. Issue 06-1949 July 8, 1977 Skopje President of the Presidency of SRM, Vidoie Smilevski, v. p. President of the Parliament of SRM, Blagoja Taleski, v. p.

LAW ON ESTABLISHING A FACULTY OF PHYSICAL CULTURE

Article 1.

A Faculty for Physical Culture is established. The headquarters of the Faculty of Physical Culture is in Skopje.

Article 2.

The Faculty of Physical Education prepares experts with high, higher and highest vocational training as well as scientific staff for work in the field of physical culture: - Professional staff with a degree for teaching physical education in educational institutions; - Professional staff with a degree in sports activity; - Professional staff with a degree in sports recreation in the field of physical culture. The Faculty of Physical Culture also performs scientific research activities in the field of physical culture.

Article 3.

The Faculty of Physical Culture shall start working in the academic year 1977/78. Preparations for starting work at the Faculty of Physical Culture and the selection of the first teachers are conducted by a parent committee of

7 members. Members of the parent committee shall be appointed by the Medical Faculty in Skopje. The parent commission shall be dismissed after the election of at least five teachers in vocational subjects with the status as workers in the associated labor.

Article 4.

On the day the Faculty of Physical Education commences with operation, the Higher School of Physical Education in Skopje shall cease to exist. The funds, rights and obligations of the Higher School of Physical Education shall be undertaken by the Faculty of Physical Education.

Article 5.

The employees of the Higher educational school for physical culture in Skopje shall be taken over by the Faculty of physical culture. The Faculty of physical culture shall also take the teachers from the Higher educational school for physical culture in Skopje, until the election of teachers for the academic year 1977/1978..

Article 6.

The Faculty shall provide funds for its operation through the General Community of Education.

Article 7.

The students who will not finish their studies at the Higher educational school for physical culture till the end of the academic year 1976/77, may continue their studies at the Faculty for physical culture in accordance with the curriculum and the study programs of the Higher educational school for physical culture no later than the academic year 1979/80.

Article 8. This Law shall enter into force on the eighth day from the day of its publication in the "Official Gazette of the Socialist Republic of Macedonia".

The Law envisaged several segments with the basic provisions for the preparation of professional staff with high, higher and highest vocational training, as well as scientific staff for work in the field of physical culture, as follows: - Professional staff with a degree for teaching physical education in educational institutions; - Professional staff with a degree in sports activity; - Professional staff with a degree in sports recreation in the field of physical culture.

The headquarters of the Faculty of Physical Education was at the same location of the Higher School of Physical Education in Skopje.

The Faculty was due to start operating in the academic year 1977/78. With the establishment of the Faculty of Physical Education, the existence of the Higher School had ceased. All the funds, rights and obligations of the Higher School were taken over by the Faculty of Physical Education. The active

students from the Higher School had a deadline to complete their studies by the end of the academic year 1979/80.

Regarding the teaching staff, on November 28, 1977, the Parent Commission opened a call for election of teachers and associates. The same Commission, upon completion of the deadlines stipulated by the competition, formed 11 review committees. By the proposal of these committees, the following teachers and associates were elected in a regular working relation for the courses:

- Gorgi Spasov M. A. - lecturer – psychomotorics
- Dimitar Manevski - junior assistant - psychomotorics
- Stojan Trninić M. A.- senior lecturer - theory of physical culture
- Atanas Kaichevski M. A. - lecturer - martial arts
- Aleksandar Naumovski, M. A.- lecturer - methodology of the research
- Cedo Šarevski M. A.- Senior Lecturer – athletics
- Vojo Nastevski - junior assistant - athletics
- Gorgi Boev - lecturer - sports gymnastics
- Slavko Matovski M. A. - senior lecturer - sports games
- Vangel Simev M. A.- assistant - sports games
- Dimitar Ciev M. A. - assistant - sports games
- Katica Dimova M. A. - senior lecturer - dance and rhythm
- Dimitrija Popovski M. A. - lecturer – swimming
- Zivko Grujoski - junior assistant - swimming
- Andon Simovski M. A. - lecturer - physical educational methodic
- Alexander Tukefievski - junior assistant - biomechanics

The elected teachers and associates entered into a working relation on 1 May 1978.

The entry examination resulted in the enrolment of 86 full-time and 18 part-time students. They were the first generation of students at the Faculty of Physical Education in Skopje. The opening ceremony of the Faculty was performed on November 11, 1977 at the Amphitheater 2, Faculty of Medicine in Skopje. As part of the ceremony, the first student's index no. 1 was awarded to Kire D. Angeleski.

During the first decade of its foundation, the number of employed teachers, engaged teachers and associates had increased, which contributed to

the development of teaching contents and forms for improvement. For the needs of the sport, the physical conditions for the realization of the courses were improved, and there was a better supply of teaching aids and devices. A program for coaching staff had been introduced for some sport disciplines. In this period, the responsibility for the realization of the physical education courses at the non-parent faculties of the "Ss. Cyril and Methodius" University was taken over by the Faculty of Physical Education.

During the first decade of development, new teachers and co-workers in permanent employment were admitted to the Faculty. This has increased the base of the cadre for even more successful teaching, scientific and applicative activity at the faculty.

The first elected and employed teachers were:

- Jovan Shukov - Kinesitherapy (1981)
- Dimitar Keramitchiev - Psychology (1981)
- Milosh Vuchidolov - hygiene (1981)
- Dusan Stanimirovic M.A. - history of physical culture (1984)
- Simeon Dukovski PhD - basketball (1985)
- Aleksandar Anastasovski PhD - Sociology of Physical Culture (1987)
- Mirco Savoski PhD - theory and method of recreation (1988)

The engagement of well-known professors on certain courses from universities in Belgrade, Nis, Zagreb, is also worth mentioning. Since its foundation, the key problem in efficient operation were the physical and material conditions. The work in shifts at the high school for physical education "Metodija Mitevski – Brico" had left its mark.

All these difficulties were never a problem for the Faculty of Physical Education to fully fulfill its duties. The improvement of the physical and material conditions and of the potential of the cadre and the resources resulted in an expansion of the range and type of operation. For the needs of the sport, a program for senior sports trainers was introduced with a duration of two years, at the beginning only the disciplines of karate, basketball, football and volleyball were included. With the expansion of the number of disciplines this program existed until 2000.

Over the next period, another 4 teacher and 9 assistants were employed at the faculty. The situation had improved in terms of quality and professionalism and the faculty has entered into calmer waters in terms of solving problems and advancing the educational and scientific activity.

Over the past four decades, many cadres have worked at the Faculty and had left it. Many young cadres have acquired their knowledge and growth at the Faculty. The natural change of generations has been observed in every decade of development.

The cadre from the Faculty is always present in the top sport - the Macedonian Olympians at the reception with the former President of the Republic of Macedonia, Kiro Gligorov

*Holders of the 8th September Award
awarded by the Government of the Republic of Macedonia*

ABOUT TODAY'S FACULTY

Today the Faculty has 46 employees, of which 36 are teaching staff, and 10 are administrative staff. The faculty of Physical Education, Sport, and Health has a function of realizing the public interest, through educational and scientific-research activity. The basic activity of the Faculty is creation of staff for the needs of education and scientific research in the field of kinesiology.

The organizational structure of the faculty is organized in such a way that besides the Dean, two vice-deans are also appointed, a vice-dean for curriculum and a vice-dean for international cooperation and science.

Dean of the faculty is prof. PhD Lenche Aleksovska Velichkovska, vice-dean for curriculum is prof. PhD Milan Naumovski, vice-dean for international cooperation and science is prof. PhD Ivan Anastasovski.

The studies are organized in three cycles, in the form of undergraduate studies lasting 3 and 4 years (first cycle studies), postgraduate studies lasting 1 and 2 years (second cycle studies) and doctoral studies lasting 3 years (third cycle studies).

First-cycle studies include the following two programs: physical and health education (four-year academic studies) and vocational studies for sports coaches.

The new undergraduate program for Sport Management is in process of accreditation.

Second cycle studies offer 4 study programs: kinesiology (2 semesters) and (4 semesters) and sports management (2 semesters) and (4 semesters). The sports management program takes place in cooperation with the Faculty of Economics at UKIM.

The faculty is in the process of accreditation for a new master study program or second cycle studies for sports journalism and sport tourism.

At present, approximately 500 students study at the faculty, and 150 students enrolled each year in regular studies. Annually, approximately 100 students graduate.

Focus on the Trends

Due to its attractiveness, as well the country's support for the development of sport in the Republic of Macedonia, over the last few years, the interest for enrollment at our Faculty has grown steadily. This trend should continue in the future, but at the same time this poses a great responsibility for the teaching staff, who are to adequately respond to the task. In order to maintain and improve this trend, the faculty works relentlessly thorough out the whole year round in order to attract new students.

For that purpose, the faculty has launched the following WEB PAGES:

- <http://www.ffosz.ukim.edu.mk/> (Page of the Faculty of Physical Education, Sport, and Health)
- <http://www.pesh.mk/> (page of a scientific journal - RESEARCH IN PHYSICAL EDUCATION, SPORT, AND HEALTH)
- <http://www.kondicija.pesh.mk/> (page of the vocational magazine KONDICIJA)
- <http://conference.pesh.mk/> (page of the Scientific conference)
- <https://www.facebook.com/ffk> (Facebook fan page)
- <http://www.kontinuirano.pesh.mk/> (Page specialized for continual education of the teachers)
- [http://www.erasmus.fizicko 1-5 odd.mk](http://www.erasmus.fizicko-1-5-odd.mk)

In addition to the Open Days at the University, the Faculty actively implements the initiated action for open meetings with future students and their parents, presenting all information related to the conditions for study, curriculum, the possibility of continuing with the education, employment, etc.

the information related to the Faculty's enrollment policy is constantly updated on their web pages: method for electronic application, quotas for each course, registration deadlines, and necessary documentation for enrollment.

The faculty prepares propaganda materials, leaflets and informative materials for studying, which are used during presentation of the Faculty in secondary schools throughout the cities of our country.

Through the Federation of School Sports, the Faculty is present at all sports events related to school sport. Through affirmed sports experts and athletes who graduated from our faculty, during the past year, the faculty was presented in many electronic and printed media.

All these activities contribute an increase in the number of enrolled students in all three cycles. In the school year 2017/2018, in all three levels of study we enrolled:

- First cycle studies in the field of physical and health education – 125 regular and 12 part-time students
- First cycle of professional studies for sports trainers -25 part-time students
- Second cycle studies – master studies in kinesiology – 4 students
- Second cycle studies – master studies in sports management – 9 students
- Third cycle studies – 12 candidates for doctoral studies in kinesiology

Curriculum And Study Programs

In the new curriculum of the program sports, the list of sports has been expanded with another 8 modern sports.

The faculty is in the process of preparation of new study programs:

- Physical education at pre-school age
- Physical education in grade teaching
- Adapted physical educations
- Physical education and sport for security and defense
- Sports management
- Sports journalism
- Sports recreation
- Kinesitherapy
- Sports tourism
- Health and fitness
- Sports psychology
- Sports nutrition

The entire potential of the Faculty is put to use in order to achieve this goal. In doing so, we are in parallel with the tendencies of the higher education in the developed European countries. Of course, these are prepared in accordance with the principles defined in the Bologna Declaration, which allows them to be recognized in the global European education system.

The undergraduate, masters and doctoral studies at our faculty are realized according to the models 4+1+3 and 3+2+2.

There are 4 accredited study programs in the second cycle of studies:

- Curriculum in kinesiology for one year (two semesters);
- Curriculum in kinesiology for two years (four semesters);
- Curriculum in sports management for one year (two semesters) and
- Curriculum in sports management for two years (four semesters)

Also, the preparation of new study programs, as well as study programs for specialist studies is underway, as an important segment for connecting with the practice.

The application of certain scientific projects that are in the function of master's and doctoral studies, ie. through which the candidates are actively involved in the studies, is an important aspect.

The supply of new research equipment, which is in progress, should raise the level of these studies.

The potential of our staff is fully up to the task in responding to the requirements arising from these types of studies, however, the visiting professors, experts from given areas, who are actively involved in the first and second cycle of studies, also provide a great contribution for the raising of the standards.

There is great interest for the third cycle of studies (doctoral studies), especially from foreign citizens. The faculty is also successful in the number of mentors in the past years.

The transferring of ECTS credits from a study program, continuing and completing doctoral studies through the mobility of students to other higher education institutions where there is a related study program which will be realized by application of the mobility programs for student (Erasmus, DAAD, Tempus), in accordance with the rules for mobility of students at UKIM. Mobility is also provided through research projects (FP7, Horizon 2020, etc.). In addition, the possibility for student mobility during their studies is of great importance so they can use different sources during their independent scientific research, through research of literature at libraries of other Universities, working in highly developed laboratories and scientific centers at other universities/faculties or through the use of resources of other faculties with compatible study programs.

The Faculty of Physical Education, Sport, and Health, as an organizer of the *study program*, undertakes several activities and mechanisms through which the quality of teaching is maintained, such as continuous evaluations, external evaluations and self-evaluations, as well as an anonymous student surveys.

Students

The Administration of the Faculty cooperates actively with the students organization of the Faculty, taking in consideration the realization of the classes and the feedback from the students in relation to the quality and the flaws in the teaching process.

The Dean, the vice-deans and the Dean's Office have days for reception for students, during which they can discuss all the problems associated with the teaching process, as well as the possibilities of its improvement.

The students participate actively in the management of the faculty, and they have a particular interest in issues related to them;

The Student Parliament actively participates in the supply of adequate material and spatial working conditions, and in terms of facilitating all their activities (sports activities, scientific and research projects, promotional campaigns, etc.);

An electronic record of each student is introduced and the Iknow-system is fully implemented.

Many students are involved in scientific-research and applicative projects, which serve as an opportunity to develop their competencies for innovation.

Our students actively participate in the realization of the overall University sport (that is, organization and realization of student sports competitions).

The exchange of students is stimulated through the existing European funds, programs and projects (Erasmus), as well as participation in other forms of bilateral exchange with certain institutions in the country and abroad.

The students are timely informed about all the seminars and work shops realized by the Faculty, which created conditions for their active participation.

Teaching And Working Conditions

The Faculty has 12 teaching rooms with a total of 1311 m². With a total of 36 rooms (for the management, the administration, a meeting room, a library, cabinets for professors, etc.), with a total area of 587 m², the basics for successful operation are partially satisfied. It also has 3 halls for realization of practical classes (40x20,26x15 and 17x17 m), with a total area of about 1500 m², sports terrains and a yard with a total area of 1591 m². The new gym has greatly improved the condition of the Faculty. The faculty has at its disposal a solid library fund of 7,000 books and 1,500 magazine volumes (60 m²). The total space for conducting the teaching is about 4600 m², which is more than 3.5 m² per student. The Faculty has modern IT equipment, with which the contemporary trends in the implementation of the teaching process and communication can be followed.

The teaching, as one of the fundamental tasks of all teaching-scientific and collaborative staff, is successfully realized with high and professional intensity. Presently, the Faculty operates in substandard conditions, which do not satisfy the basic criteria necessary for successful realization of the teaching. With the unconditional engagement of the whole teaching staff, the teaching and the teaching contents are successfully realized in full.

Due to the increasing number of students in the first academic year, the Faculty uses one large amphitheater at the Faculty of Natural Sciences and Mathematics - Institute of Chemistry, where the theoretical teaching is carried out on several subjects, while the Medical Faculty at the Institute of Anatomy, the theoretical instruction on the subject functional anatomy.

We are hopeful that with the construction of the new administrative building, which is in progress, all these problems will be overcome.

The obligations arising from the application of the ECTS both in terms of the rights and in relation to the obligations for each subject have been unified and detailed analysis of the previous work according to the ECTS model.

New study programs are developed and the existing ones are adapted according to the new requirements arising from the new Law on Higher Education - the study programs of the first and second cycle of studies have been re-accredited and accredited..

The pedagogical practice of students from the direction of sport is realized in several sports clubs.

The elective courses are attractive for students at the University (on the list of elective courses of UKIM) and over the past period they have been realized in full.

The school realizes field teaching on the subjects of skiing and camping with a hiking tour. During their realization, the administration is focused on providing excellent working conditions and stay for the students.

Teaching Realized By The Center For Physical Education

Since 1992, the Center for Physical Education also operates within the structure of the Faculty, which according to the Rulebook 278 of 04.02.2014 is the internal organizational unit of the Faculty.

The Center for Physical Education *realizes classes for* physical education and sports activities for students at all faculties at the 'Ss. Cyril and Methodius' University. The Sport and Health *course*, has become a mandatory *course* in the first year *in* all faculties of UKIM. For the purposes of teaching this course and for the development of *the* university sport, the Agency for Sport and Youth has built a large sports hall on the UKIM campus. With the foregoing, a real possibility is *presented* for a complete reorganization of the *teaching process of the* sport and health *course*, as well as *an* opportunity for *the* colleagues *who* work *at* the center to be *appointed* in appropriate scientific titles.

Scientific-Research Activity And International Cooperation

In addition to the primary activity, the secondary activity of the Faculty is the scientific-research activity, in which fundamental, developmental and applied research are conducted.

The Faculty, in collaboration with the Bureau for Development of Education of the Republic of Macedonia, the Agency for Youth and Sports, and the sports federations, has realized several projects in which most of the scientific and research potential of the Faculty have been involved. Some of them are:

- Continuous education of teachers in physical and health education, sport and sports activities, 2011-2017.
- Continuous monitoring of the achievements of students athletes at the Sports Academy, Skopje 2017 - 2018.
- Application of modern methods during class in 1-5 grade, 2016.
- Measurement and testing of young male representatives in basketball, Skopje 2017-2018.
- Measurement and testing of young female representatives in volleyball, Skopje 2017-2018.
- Measurement and testing of young male representative in handball, Skopje 2017-2018.
- Measurement and testing of male representatives in karate, Skopje 2010-2017.
- Measurement and testing of young football players, Skopje 2016-2017

In cooperation with the NGOs, two projects have been realized:

- Gender equality
- Leadership among women in collaboration with the embassies of the Netherlands, the United States and France.

The Faculty together with the Agency of Sports and Youth have realized the following applicative projects for support of sports:

- Application of national legislation for support of the sport, the rights and the obligations, 2017/2018
- Decentralization of the sports, the rights, and the obligations of the local self-government units, 2017/2018
- Education and management of the school sports clubs in collaboration with the Federation of School Sports, 2017/2018
- Seminars for younger referees in basketball, volleyball, football and handball in collaboration with the Federation of School Sports, 2017/2018.

- A project of the "Ss. Cyril and Methodius" University, Social inclusion through sport on UKIM for people with special needs (SISPSN), 2018/2019 year.
- Change your mindset, Sport for everyone, a project realized with experts from the Faculty of Physical Education, Sport, and Health, the Macedonian Paralympic Committee and seven partners from Croatia (leading partner), Slovenia, Italy, Montenegro, Austria, Serbia, the Erasmus + program, 2017/2018.

The realization of the project from the Erasmus program under the title: "Improvement of the quality of physical education at the level of primary education, presenting its importance, and the importance of health and well-being of the future generations", is underway. The project is realized by the Faculty of Physical Education, Sport, and Health within the structure of UKIM, under the guidance of the Dean, Prof. PhD Lence Aleksovska Velichkovska and the Rector of the University Prof. PhD Nikola Jankulovski, together with the partners: MES-Bureau for Development of Education, Faculty of Sport in Ljubljana-Slovenia, National Sports Academy in Sofia, Bulgaria.

The goal of the project is to legally allow the inclusion of a teacher of physical education in the primary schools who together with the class teacher will realize a modern European teaching program for the physical and health education class. The whole activity is directed and is in function of children's health. For the first time in the history of physical education and sports, full support has been provided by the Ministry of Education and Science and the current Minister of Education and Science, Prof. PhD. Renata Deskovska, 2017.

Tandem at the physical education class - class teacher and a teacher of physical education in Ljubljana, Slovenia, has been realized since 2002

We encourage our staff working in the field of sports to offer the program and services of the institute. Together and institutionally, we are stronger.

We are stimulating our teachers and collaborators who receive an international or national project by providing them with aid, both financialy and in terms of personnel, spatial, technical, technological, administrative

and all other necessary conditions.

We provide them with information about the possibilities for application on certain projects in a timely manner. Continuous education among all staff, and especially among the younger scientific staff, regarding the writing of applications for application in national, and especially in international scientific projects.

We stimulate the mobility of scientific staff with regard to their stay in certain European and world centers and institutions;

We directly involve students from master and doctoral studies in scientific and applicative projects.

The publication of the international scientific journal of the Faculty RESEARCH IN PHYSICAL EDUCATION, SPORT, AND HEALTH continues, and after the publication of its tenth issue, it became a relevant journal for evaluation of the work for election of teaching-scientific titles and the obtaining of mentorship.

The publication of the vocational journal "Kondicija", published by the Faculty, continues. It has come across a greater interest among the wider public, especially among parents and professional staff from numerous sport disciplines.

In 2014, in Ohrid, the First International Scientific Conference, Research in Physical Education, Sport, and Health, was held.

In 2016, in Skopje, the Second International Scientific Conference, Research in Physical Education, Sport and Health, was held.

This year in Skopje, in the period from 01.06 to 02.06.2018 the Third International Scientific Conference Research in Physical Education, Sport and Health will be held. Plenary lecturers at the Conference will be the following eminent scientists:

1. Prof. Keith Davids, PhD, (Sheffield Hallam University, United Kingdom).

Theme: Developing learning environments for top rising athletes

2. Prof. Milan Žvan, PhD, (Ljubljanski Univerzitet, Fakultet športa, Ljubljana, Slovenia)

Theme: Modern trends in physical and health education

3. Prof. Robert Rain, PhD, (Institute for cognitive and sports game research German Sport University Cologne, Germany).

Theme: Spatial modeling of the football game

4. Prof. Daniel Eckert-Lindhammer, PhD, (ITK University in Leipzig, Germany).

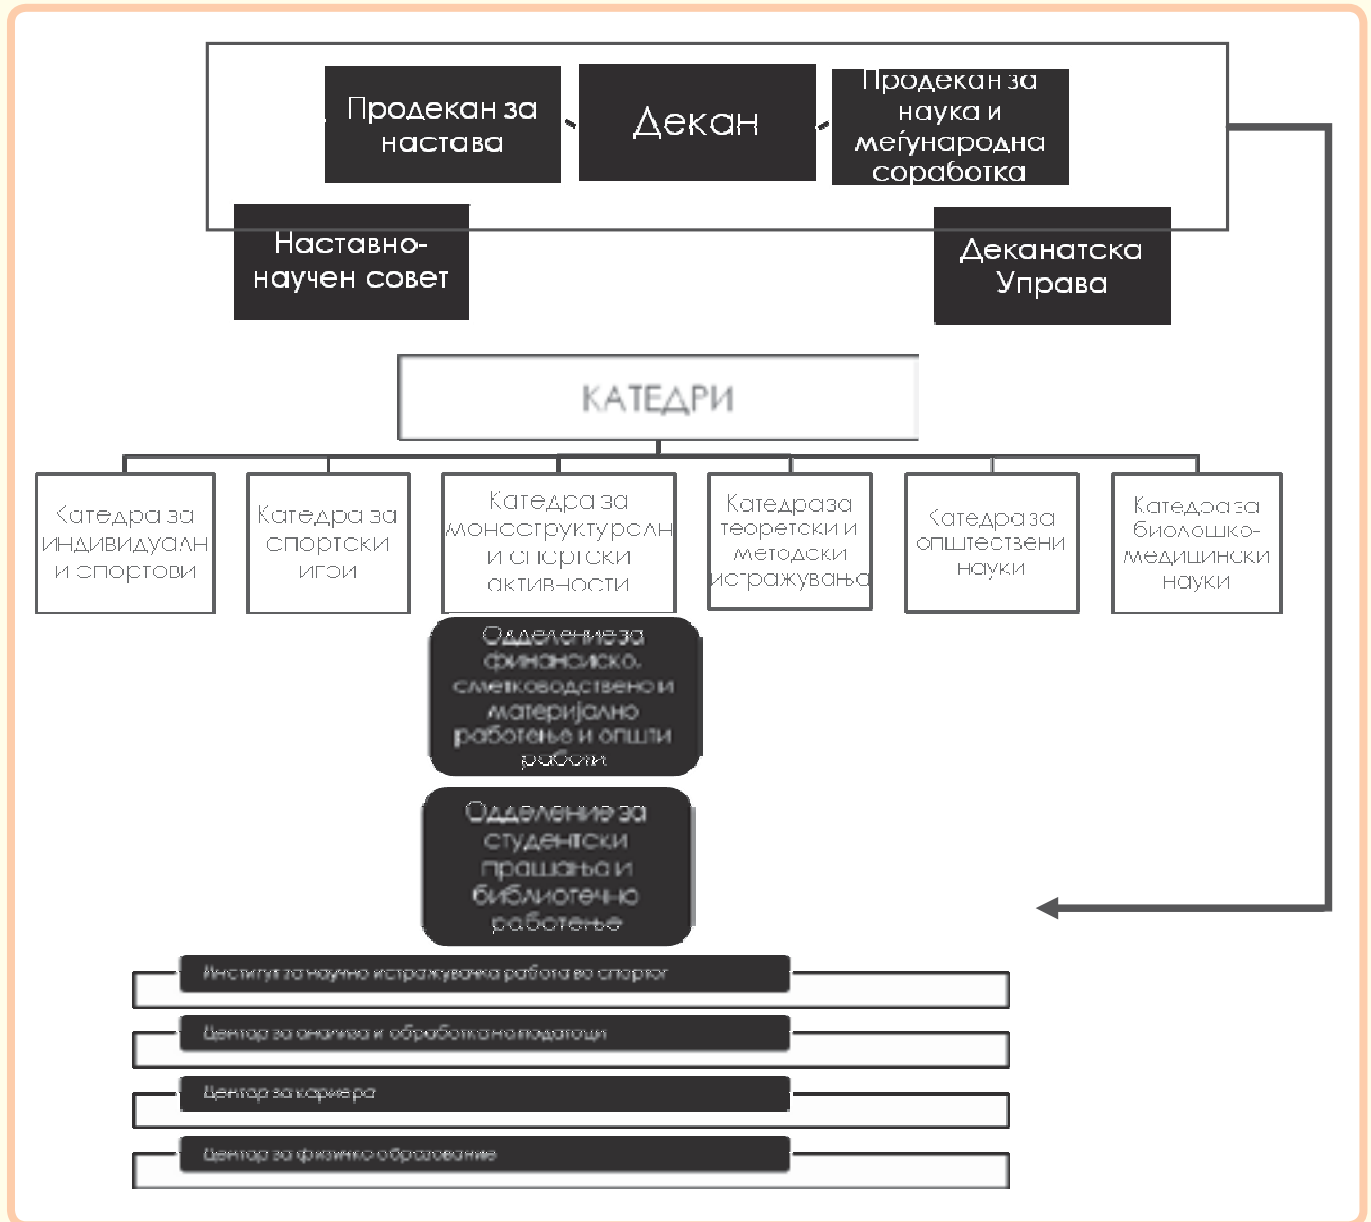

Theme: The Olympic spirit through education

5. Prof. Slobodan Antov, PhD, (University Clinic of Cardiology "Ss. Cyril and Methodius", Skopje, Macedonia). Theme: Physical activity and cardiovascular diseases

6. Prof. Zoran Handziski, PhD, (Macedonian Olympic Committee, Skopje, Macedonia).

Theme: Application of isokinetics in sports medicine

ORGANIZATIONAL STRUCTURE

DEAN

Prof. PhD Lence Aleksovska Velichkovska

VICE-DEANS

The vice-deans are the closest associates of the dean who, in exercising his rights and obligations, empowers them in accordance with the departmental working environment. For their work, the vice-deans are answerable to the Teaching-Scientific Council and the Dean.

VICE-DEAN FOR TEACHING
Prof. PhD Milan Naumovski

**VICE-DEAN FOR SCIENCE AND
INTERNATIONAL COOPERATION**
Prof. PhD Ivan Anastasovski

TEACHING-SCIENTIFIC COUNCIL

The Teaching Scientific Council is a vocational body of the Faculty. At its sessions, it adopts general acts, decisions, conclusions, recommendations and other acts. It also takes views on specific issues and offers suggestions and opinions, reviews information and announcements.

The general acts are passed to regulate general questions of the work and activities of the Faculty and implementation of laws in certain areas.

The individual acts adopted by the Teaching-Scientific Council are adopted for the purpose of regulating certain issues of the Faculty's activity, for application and concretization of general acts.

The Teaching-Scientific Council of the Faculty consists of regular and associate professors and docents are employed at the Faculty, as well as student representatives selected by the Student Parliament. The head of the Center for Physical Education also participates in the work of the Teaching-Scientific Council of the Faculty of Physical Education, Sport, and Health (only considering issues of its departmental operations).

DEAN'S OFFICE ADMINISTRATION

The Dean's Office Administration is a management body of the Faculty and consists of 10 members: the Dean, the Vice-Deans, the Heads of Departments and the President of the Student Parliament of the Faculty.

The Dean's Office Administration is responsible for realization of the activity and development of the Faculty and the relations with the wider social community and the state authorities, it adopts acts and monitors their

execution, it adopts the financial plan and the final financial account (financial annual report) in accordance with the single financial plan of the University and the consolidated final account of the University. In addition, the Dean's Office Administration monitors the financial operations of the Faculty, proposes changes or extensions of the activity, prepares and proposes acts and materials on issues on which the Teaching-Scientific Council and the Dean decide.

The Dean's Office Administration decides on the curriculum and the teaching by the proposal of the departments, adopts a program for study visits of associate-assistants, students and visiting professors from the Faculty of Foreign Universities.

Dean's Office Administration

A meeting of the Dean's Office Administration

Teaching-Scientific Collegium Of Second-Cycle Study Programs

The collegium consists of teachers who teach in subjects determined by the study program. The collegium proposes to the Teaching-Scientific Council: conditions and criteria for enrolling students in the second cycle of studies; takes care of implementation and procedure for application and selection of candidates in accordance with the conditions of enrolment; submits a report to the Teaching-Scientific Council on the number of enrolled students per study program; prepares and conducts the procedure for application, defense and evaluation of the master thesis; submits an opinion to the TSC

for the eligibility of the reported topic for preparation of a master thesis; proposes topics to the TSC for the master thesis; proposes a list of mentors for the candidates to TSC; proposes commissions for evaluation and defense of master theses to TSC; determines the equivalence of passing exams according to the old programs; performs other activities at the request of the Dean and the TSC.

Members of the Scientific Collegium of the FPESH

Women in executive positions at faculty and sports

Rector's Office of UKIM, for the first time a vice-rector from our Faculty, prof. Dr. Vujica Zivkovic

Departments

Within the educational-scientific organizational units, the Faculty of Physical Education, Sport and Health has 6 basic internal organizational units - departments:

DEPARTMENT FOR MONO-STRUCTURAL SPORTS ACTIVITIES

ANTROPOMOTORICS

SPORTS GYMNASTICS

DEPARTMENT FOR THEORETICAL AND METHODIC RESEARCH

DIDACTICS OF PHYSICAL EDUCATION AND SPORT

THEORY AND METHODOLOGY OF SPORT TRAINING

*ТЕОРИЈА И МЕТОДИКА НА СПОРТСКАТА
РЕКРЕАЦИЈА*

ANTHROPOLOGICAL KINESIOLOGY

DEPARTMENT OF SOCIAL SCIENCES

*PSYCHOLOGY OF PHYSICAL AND HEALTH
EDUCATION AND SPORT*

HISTORY OF PHYSICAL CULTURE

*SOCIOLOGY OF PHYSICAL AND HEALTH
EDUCATION AND SPORT*

METHODOLOGY WITH STATISTICS

DEPARTMENT OF BIOLOGICAL- MEDICAL SCIENCES

KINESIOTHERAPY

BIOMECHANICS

MEDICINE OF SPORT

*HYGIENE IN PHYSICAL AND HEALTH EDUCATION
AND SPORT*

PHYSIOLOGY

FUNCTIONAL ANATOMY

DEPARTMENT OF INDIVIDUAL SPORTS

ATHLETICS

SWIMMING WITH WATERPOLLO

MARTIAL ARTS- 1 (BOXING AND WRESTLING)

MARTIAL ARTS - 2 (JUDO AND KARATE)

DEPARTMENT OF SPORTS GAMES

BASKETBALL

VOLLEYBALL

HANDBALL

FOOTBALL

Other internal organizational units are:

INSTITUTE FOR SCIENTIFIC RESEARCH WORK IN SPORT

Dr. sc. Tomislav Andonovski - Head of the Institute for Scientific Research Work in Sports

The need for establishing an Institute at the Faculty of Physical Education in Skopje has slowly risen over the last decade. Starting from the action goals, an action plan for the organizational structure of this Institute was presented even in 2005. The ultimate goal was the inclusion of the civil and school population, and the recreational and professional sport. However, in the years to come, this idea became stagnant, for, in 2013, with great support from the rector of the "Ss. Cyril and Methodius" University in Skopje, the Ministry of Education and Science and the Agency for Youth and Sports, as well as numerous sports federations, it to finally lay the foundations of the constitution of the **INSTITUTE FOR SCIENTIFIC RESEARCH IN SPORT**.

The Institute, within its scope of activity:

- organizes and conducts scientific research and publishing activity;
- organizes and realizes implementative, i.e applicative activity;
- participates in preparation of programs for the scientific-research work of the Faculty;

- performs professional, advisory and other implementative, i.e. applicative services for needs of sports clubs, national sports federations, educational institutions and institutions of central and local government, non government organisations, etc.
- participates in the development of junior scientific cadre;
- takes care of the development of scientific disciplines and professions;
- supports the inclusion of students in scientific and research work;
- studies the possibilities and forms of transferring scientific and research results into practice;
- performs other activities determined by the Institute's working program.

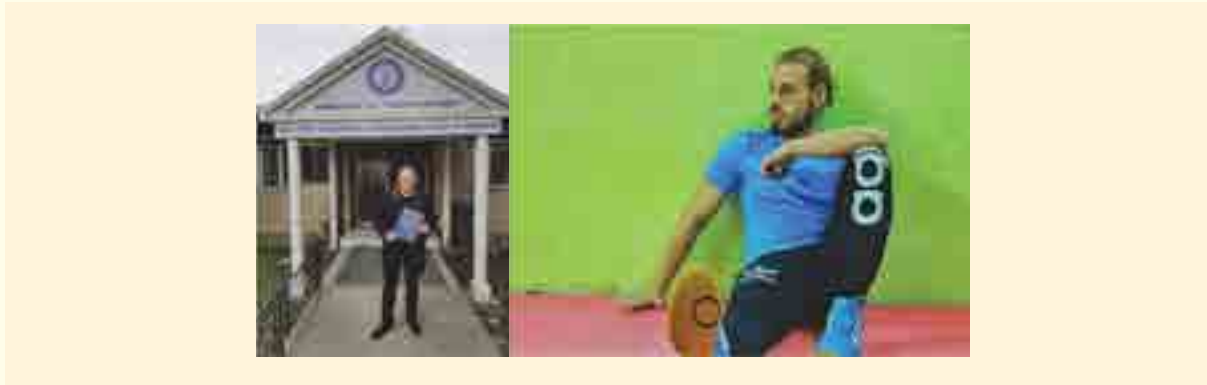

Junior scientific cadre at the Faculty of Physical Education, Sport, and Health.

The Institute is managed by a head which has a doctorate in a respective field. The first and current head is Dr. sc. Tomislav Andonovski. As planned, teachers, associates and assistants - PhD students from the departments, as well as certain external associates, experts from certain areas may be engaged in the realization of the Institute's program.

- The first step is to establish an even closer cooperation with sports federations responsible for representative teams and clubs from all levels of competition. The Faculty meets the conditions for taking responsibility for more advanced development of professional sport and giving contribution to active implementation of modern scientific knowledge.

- Also, the program's orientation of the Institute is to treat the needs of citizens in terms of maintenance and development of positive psychophysical status.
- The third segment is involvement of school population with intention to monitor, analyze and improve their anthropological status.

Among the ten best students of the second cycle of studies at the University
Darko Kalanovski - top handball player and an excellent student

CENTER FOR ANALYSIS AND DATA PROCESSING

Every individual and institution should follow the modern trends of scientific research, everyday novelties and devices from the electronic world. The Faculty began the initiative for establishment of a Center for analysis and data processing for the purpose of better operation. The Center for analysis and data processing is managed by a Head who has a PhD in the respective field. The first and current head of the Center for analysis and data processing is Prof. PhD Georgi Gorgiev, and his associates are associate Prof. PhD Serjozha Gontarev and Docent Phd Aleksandar Aceski.

Center for analysis and data processing

For the realization of the program of the Center, teachers, associates, assistants - PhD students from the departments, as well as certain external collaborators, and experts in certain areas, can be hired, who, by a proposal of the Head, are engaged by the Dean of the Faculty.

The Center's annual program for work is prepared and proposed by the Head of the Center. Structurally speaking, the Center covers the overall procedure and methodological bases at all levels of scientific and research work. The Center, within the scope of its activity, provides the following services:

- helps with the conception of the hypotheses, goals, subject matter, problem of research, etc., in accordance with strictly defined methodological rules;
- assistance in the selection and production of instruments (tests, questionnaires, surveys, scales, etc.).
- assistance in checking the measurement characteristics of instruments;
- creating templates for data entry, instructions for data entry, etc. .;
- data entry by experts;
- preparation of data processing (sorting, filtering, selecting, cleaning and more.);
- statistical data processing (univariate, multivariate analysis, parametric and nonparametric statistics, analysis of video materials, etc.), with a detailed interpretation of the obtained results;
- display of results - tabular and graphic;
- printing the results:
- saving the entered data in a system from where they can be accessed for future for scientific purposes;
- sorting, filtering, printing of the saved data for analysis and distribution, preparation of appropriate reports and their publication in scientific and vocational publications;
- possibility of adding additional data for scientific research.
- text input, adjusting the layout of text and images, including scanning and optical recognition features;
- forming document and other preparatory printing operations;
- preparation and processing of data for multimedia use;
- computer processing of the product for printing;
- performs other activities in accordance with the activity of the Faculty.

CAREER CENTER

In accordance to Article 12 of the Rulebook on establishment and operation of the centers for career of the Units of the "Ss. Cyril and Methodius" University in Skopje, by decision of the Teaching-Scientific Council, the Career Center at the Faculty of Physical Education, Sport, and Health is established within the "Ss. Cyril and Methodius" University, where the following have been appointed:

President Prof. PhD. Milan Naumovski, members: Docent. Phd Seryozha Gontarev, Docent PhD Aleksandar Aceski, and Docent PhD Vlatko Nedelkovski.

The manner of work, scope, competences and activities of the Career Center are determined by the Rulebook on establishment and operation of the career centers of the Units of the "Ss. Cyril and Methodius University" University in Skopje.

The Faculty maintains alumni databases in electronic form for graduates: graduates fill in an application form containing: basic personal data for the graduated student, study program and module, degree of education, year of graduation, contact details (telephone, e-mail address, etc.). The students allow the Career Center to come in touch with public and private institutions with the purpose of their future employment through the application forms which they signed.

In accordance to Article 7 of the Rulebook on establishment and operation of the career centers of the Units of UKIM, the Career Center of FPESH within the UKIM-Skopje, in accordance with its competencies, undertakes the following activities:

It participates in the organization of compulsory practical classes for students which are held in elementary and high schools in Macedonia.

It organizes and realizes practical classes with the students.

In order to encourage and organize voluntary work by the students, the Career Center hires students based on their volunteering in the following activities: coordinators of sports competitions: football, handball, basketball, volleyball, athletics, karate, bowling, etc., promoters of physical activity for the purpose of health, active participants in aerobics conventions organized throughout our country and abroad, in the European Week Movement ("MOVE WEEK"), manifestations and projects under the auspices of the President of the State "Sport in function of improving interethnic relations and tolerance", sport in function of reducing violence and aggression among youth ".

A cooperation and mobility agreement was signed with the University of Slovenia, Faculty of Sport-Ljubljana, Veliko Trnovo, Republic of Bulgaria, NSA-

Sofia, Bulgaria, Faculty of Sport-Lithuania, Finland and several mobility of students and teaching staff have already been realized.

Within the project "Continual education of teachers in physical education, sport, and health", which is being developed in cooperation with the Ministry of Education, the Agency for Youth and Sport and the Bureau for Development of Education in the Republic of Macedonia, the Career Center hires students and graduated professors who are and are not employed.

The Career Center organizes visits to sports federations and sports clubs for students, in order to familiarize them with their operation.

Sports science-a blend of theory and practice

ALUMNI CLUB

Alumni Club was founded in order to connect graduates and employers and develop awareness among students and graduates for the modern working conditions. The club is available to students to help them develop skills and gain knowledge that is extremely important in work and employment, to gain work experience during the studies and get acquainted with the employers' community and its rules, as well as to learn and think constructively about the given opportunities.

The Alumni Club is organized in such a way that it offers professional and useful support to students and graduates for the development skills and knowledge which will be necessary for their employment or further education, as well as linking the academic community and the employers' community. The main goals of this club are to connect graduates and employers and to develop awareness among students and graduates about the modern working

conditions, that is, that the employers require more than a diploma. The structure of the alumni club allows students to understand that it is necessary to develop practical skills and abilities, because of their better preparation for the rapidly changing labor market.

The main activities of the alumni club are oriented towards the facilitation of the process of career research and career choice, discovering the interests within a real working situation, gaining relevant work experience in the field of interest, acquiring learning experience that goes beyond the boundaries of the classroom. All this makes the theoretical learning more relevant to the students.

Creators of many scientific and sports researches and activities

Center for Physical Education

Within the structure of the Faculty of Physical Education, Sport, and Health, the Center for Physical Education exists as a separate organizational unit, with the primary task of organizing and conducting the teaching in the course for sport and health with the students of non-parent faculties within the structure of UKIM.

Back in 1966/67, the Committee for Physical Education of Macedonia, by adopting the Law on Physical Culture, has taken the initiative to introduce a mandatory physical education course for the students of UKIM. For this purpose, the University established a Committee for Sports in order to suggest measures and conclusions to the University Council, for the adoption of the decision for the commencement of the physical education course for the students from UKIM.

In 1967 the working community of UKIM employs professor Ivan Panov as an expert, with the task of preparing all the necessary conditions for the

commencement of this course, which was aided with the material and financial resources from the budget of the Republic of Macedonia. After all the necessary conditions were met, in the school year 1968/69, the course had commenced with 350 students from the Medical Faculty.

Over the following period, the course began to encompass a larger number of students.

On October 22, 1982, after a referendum held on: "Ss. Cyril and Methodius" University, the Faculty of Physical Education and the Center for Physical Education, a self-governed agreement had been signed for the merging of the Center with the Faculty. In doing so, the Center is renamed as the Department of Physical Education. The purpose of the merge was to create more favorable conditions for organizing and conducting physical education classes with students from non-parent faculties within the UKIM. Immediately after the merge of the Center with the Faculty, a selection procedure had commenced for the 11 full-time teachers with the teaching titles of lecturer and senior lecturer. Later, the Department of Physical Education was renamed as the Center for Physical Education.

As the number of teachers increased, by the academic year 1997/98 we had 24 teachers, who taught around 6000 students in the first year of studies on all faculties within UKIM. During this period, the course was mandatory with a weekly fund 0 + 2 classes, in the first and second semesters.

During the period from 2000 to 2013, the Center for Physical Education goes through the most difficult years of its existence, because the competent Ministry had stopped the funding for the sports facilities, that is, the execution of the teaching.

Because the funding had stopped, several faculties terminated the physical education courses. A ray of hope came in 2013, when the construction of the multi-functional hall at the campus of UKIM began, as well as the decision made in March 2014 by the Teaching and Scientific Council of FPESH, which was unanimously accepted by the Rector's Board in April that year, the course sport and health to become a one-semester and a mandatory subject with weekly fund of 2 hours 0 + 2 ECTS credits.

To date, the subject has been accredited by 12 faculties, and the teaching is performed by only 6 teachers, out of which 5 are with a PhD in the field of kinesiology and one is with an M.A. In addition to regular classes, the Center's employees also organize extracurricular activities such as: the traditional hiking tour organized on the occasion of the 13-th November, the liberation of the city of Skopje, which is performed under the auspices of the rector of UKIM. Teachers from the Center are also involved in the organization and realization of university sports competitions.

Part of the teaching in the field of sport and health at non-parent faculties

Vocational staff from the Center for Physical Education, who have successfully realized the curriculum since the foundation until today

The Center for Physical Education continues to perform its function as a working unit at the Faculty of Physical Education, Sport, and Health in Skopje. Today, with small but serious steps, we are on the path to solve this teaching systematically, which by its structure and influence has predispositions for a great future and a great positive impact, not just on the Faculty of Physical Education, Sport, and Health, but to the entire University.

UKIM'S UNIVERSITY SPORTS MATCHES IN TEAM AND INDIVIDUAL COMPETITIONS IN THE 2016-2017 COMPETITION SEASON

REPORT

During the period 13.03 - 19.05.2017, under the organization of the Faculty of Physical Education, Sport, and Health, the Center for Physical Education and Sport at the Faculty of Physical Education, Sport, and Health, and the University Sports Union of the University "Ss. Cyril and Methodius" University in Skopje, the **UNIVERSITY SPORTS MATCHES OF THE "Ss. CYRIL AND METHODIUS" UNIVERSITY IN SKOPJE FOR THE 2016/2017 SEASON COMPETITION** were held in the following sports:

- MINI FOOTBAL
- BASKETBALL MEN
- BASKETBALL WOMEN
- HANDBALL MEN
- HANDBALL WOMEN
- VOLLEYBALL MEN
- VOLLEYBALL WOMEN
- AIR RIFLE SHOOTING FOR MEN
- AIR RIFLE SHOOTING FOR WOMEN
- TABLE TENNIS MEN
- TABLE TENNIS WOMEN
- CHESS FOR MEN
- CHESS FOR WOMEN
- TENIS FOR MEN
- TENIS FOR WOMEN

At this year's **University Sports Competitions at the University "Ss. Cyril and Methodius"** in Skopje, **19** faculties with a total of **976** participants attended.

The President of the University Sports of UKIM,
Prof. PhD. Nebojsa Markovski

EDUCATIONAL ACTIVITY

The educational activity is divided in three cycles among which include the undergraduate studies or the first cycle studies, the postgraduate studies or second cycle and the doctoral studies or third cycle of studies.

The existing teaching staff at the Faculty of Physical Education, Sport and Health in Skopje, is in high quantity and is highly qualitative. The new scientific and research findings arising from the individual scientific and research activities of the teachers and the associates and their mutual collaborations, both at the Faculty and outside of it, have increased the quality of work. Today, we can proudly conclude that the teaching and associate staff of the Faculty are the foundation for the development of physical and health education, sports, kinesitherapy and Recreational Sports in the Republic of Macedonia and beyond.

Basic kinesiology	<ol style="list-style-type: none">1. Anthropomotrics2. Biomechanics3. Theory of physical culture (kinesiological anthropology)1. Didactics in Physical and Health Education4. Theory and methodology of sports training5. Theory and methodology of Recreational Sports6. Medicine in sports2. Hygiene in physical and health education and sports7. Anatomy8. Physiology
Social kinesiology	<ol style="list-style-type: none">1. History of physical culture2. Psychology in Physical and Health Education and Sports3. Sociology in Physical and Health Education and Sports4. Pedagogy5. Methodology of surveys with statistics

Applied kinesiology	<ol style="list-style-type: none"> 1. Basketball 2. Handball 3. Volleyball 4. Football 5. Sports gymnastics 6. Judo 7. Karate 8. Boks 9. Wrestling 10. Athletics 11. Kinesitherapy 12. Swimming with water polo 13. Dance and folk dances
----------------------------	--

The existing organizational setup of three areas (basic, social and applied kinesiology) determines the action of teachers and associates.

Over the past 40 years, the curricula have changed according to social changes and needs.

The Faculty of Physical Education in Skopje, in the 1977/78 academic year, started with a curriculum for undergraduate studies, adopted by the Home Commission. The first degree of undergraduate studies lasted 4 semesters, and the second degree of undergraduate studies lasted 4 more semesters. In 1982, these two-level studies have merged into an integrated undergraduate program lasting 8 semesters.

From the study year of 1995/96 to the new legal provisions in 2000, there were undergraduate studies for senior sports trainers. In cooperation with sports organizations, for the needs of these organizations, this program profiled more than 100 students in the title of senior sports coach. The studies lasted 4 semesters. More than 20 sports disciplines were covered..

For the purpose of achieving the goal of more authentic vocational training, top executives from the professional practice were hired.

In 1991/1992, the Elaborate for opening postgraduate studies at the Faculty of Physical Education in Skopje was successfully realized. The decision to introduce postgraduate studies in the 1989/1990 study year had a major impact on the improvement of the personnel situation and the improvement of the scientific potential of the Faculty. The better social and personnel conditions significantly enhanced the possibility of independent professional and scientific improvement. Some of the first candidates were the associates who studied at the universities in Belgrade, Zagreb, Novi Sad and Sarajevo at that time. Also, new young professionals full of potential were involved in these studies. Today, with a number of completed masters and defended doctoral dissertations, the Faculty has an enviable number of qualified scientific workers.

Specialty studies lasting 2 semesters in the field of sports were also organized. The so-called mentoring system of work was applied due to the lack of spatial conditions for realization of this teaching. The program contents included: the

theory of training with the study of theoretical knowledge of training in our country and the world; practical activities for understanding and improving the training methodology, as well as the management of the overall process, including competitions and other practical issues related to the immediate process of planning, preparation and realization of the activities in the training system and competition. Although attractive and pragmatic, this specialty study program has remained quite inactive and unused.

Following the social needs and the experiences from other related faculties, the established curriculum for undergraduate studies profiled professional graduate cadres who fully met the needs of primary and secondary education, of organizations and sports clubs and of the organizations of associated labor. However, the progress and development of physical culture as a field imposed the need for analysis and change. For this purpose, after some partial social changes, it was concluded that certain adaptations towards the newly arisen conditions and trends are needed. In the study year 2001/2002, new curricula were set with the purpose of introducing the European credit-transfer system. The tendency to adapt to European values, as in other social spheres, resulted in this curriculum.

Lists were developed according to the model for selection, as well as according to the obligation for the inclusion of at least two elective courses. In accordance with the first stages of transformation in the direction of establishing the credit-transfer system, the basic conditions for adapting these curricula were fulfilled.

In the following period, with the modernization of the teaching and the changes in the legal regulations, the modern study programs were accredited within the integrated University. The curricula that are current at the Faculty of Physical Education, Sport and Health went through the procedures in a chronological order and in accordance with the legal regulations.

STUDY PROGRAMS

At this moment our Faculty disposes with two departments (physical and health education and professional studies for sports coaches). The re-accreditation of the two curricula and the provisions for work for the next four years were obtained in 2017, so student enrollment for the 2017/18 academic year was carried out in accordance with the re-accredited curricula.

In the new study program for vocational studies for sports coaches, the list of sports has been expanded with another 8 current sports.

The faculty is in the phase of developing new study programs:

- Physical education at pre-school age
- Physical education in elementary schools
- Adapted physical education
- Physical education and sport for security and defense
- Sports management
- Sports journalism
- Recreational Sports
- Kinesitherapy
- Sport and tourism
- Health and fitness
- Sports nutrition
- Sports psychology

In order to achieve this goal, the whole potential of the Faculty has been mobilized. In doing so, we will fully adopt the tendencies of higher education in the developed European countries. Of course, they are prepared in accordance with the principles defined in the Bologna Declaration, which allows them to be recognized in the global European education system.

РЕПУБЛИКА МАКЕДОНИЈА
МИНИСТЕРСТВО ЗА ОБРАЗОВАНИЕ И НАУКА
УПШ бр. 15-690/698, 698
15-690/698
СКОПЈЕ

25.04.2017

08 346/1 9 7

Врз основа на член 55 став 1 од Законот за организација и работа на органите на државната управа („Службен весник на Република Македонија“ бр. 58/00, 44/02, 82/08 167/10 и 51/11), а во врска со член 104 став 2 од Законот за високото образование („Службен весник на Република Македонија“ бр. 35/08, 103/08, 26/09, 83/02, 99/09, 115/10, 17/11, 51/11, 123/12, 15/13, 24/13, 41/13, 116/14, 130/14, 10/15, 20/15, 98/15, 145/15, 154/15, 30/16 и 127/16), министерот за образование и наука донесе

РЕШЕНИЕ

за почеток со работа на Студиските програми од прв циклус студии на тригодишни студии по Спортски тренери и четиригодишни студии по Физичко и здравствено образование и Студиската програма од втор циклус на едногодишни студии по Кинезиологија на Факултетот за физичко образование, спорт и здравје при Универзитетот „Св. Кирил и Методиј“ во Скопје

1. Со ова решение се утврдува дека се исполнети условите за почеток со работа на Студиските програми од прв циклус студии на тригодишни студии по Спортски тренери и четиригодишни студии по Физичко и здравствено образование и Студиските програми од втор циклус на едногодишни студии по Кинезиологија на Факултетот за физичко образование, спорт и здравје при Универзитетот „Св. Кирил и Методиј“ во Скопје.

2. Ова решение влегува во сила со датум на донесување.

Образложение

По донесувањето Решенија со бр. 17-40/2 од 13.03.2017 година, бр. 17-43/2 од 13.03.2017 година и бр. 17-498/2 од 13.03.2017 година, Одборот за акредитација и евалуација на високото образование на Република Македонија ги акредитира студиските програми од прв циклус студии на тригодишни студии по Спортски тренери и четиригодишни студии по Физичко и здравствено образование и Студиската програма од втор циклус на едногодишни студии по Кинезиологија на Факултетот за физичко образование, спорт и здравје, Факултетот за физичко образование, спорт и здравје при Универзитетот „Св. Кирил и Методиј“ во Скопје, под нивни бр. 15-367/2 од 21.03.2017 година (под наш УПШ бр. 14-698 од 22.03.2017 година), 15-388/2 од 21.03.2017 година (под наш УПШ бр. 14-696 од 22.03.2017 година) и 15-389/2 од 21.03.2017 година (под наш УПШ бр. 14-697 од 22.03.2017 година), до Министерството за образование и наука, за утврдување на исполнителста на условите за почеток со работа на горенаведените студиски програми на Факултетот за физичко образование, спорт и здравје при Универзитетот „Св. Кирил и Методиј“ во Скопје.

Министерот за образование и наука, со Решение УПН бр. 14-696, 697, 698 од 11.03.2017 година, формира Комисија за утврдување на исполнителноста на условите за почеток со работа.

Комисијата на ден 10.04.2017 година, изврши увид и изготви Извештај УПН бр. 14-696, 697, 698 од 11.04.2017 година, каде е наведено дека се исполнети условите за почеток со работа на студиската програма од прв циклус студии на тригодишните студии по Спортна тренерска и четиригодишните студии по Физичко и здравствено образование и Студиската програма од втор циклус на едногодишните студии по Кинезиологија на Факултетот за физичко образование, спорт и здравје, Факултетот за физичко образование, спорт и здравје при Универзитетот „Св. Кирил и Методиј“ во Скопје, согласно одредбите утврдени со Законот за високото образование и Уредбата за нормативни и стандарди за основање на високобразовни установи и за вршење на високобразовна дејност („Службен весник на Република Македонија“ бр. 103/10, 166/10 и 10/11).

Извештајот по предмет изнесеното, се одлучи како во диспозитивот на ова решение.

УПАТСТВО ЗА ПРАВНО СРЕДСТВО: Против ова решение, може да се започне управен спор, со поднесување на тужба до Управниот суд на Република Македонија, во рок од 30 дена од денот на приемот на ова решение.

N The names of elective courses in the first semester (List B) and the names of the teachers who teach them

Nun	Code	Name of Course	Name and surname of the teacher
1	251	Research in Transformation of Motor Operationability and Strength Abilities	Full. Prof. PhD. Jovan Jovanovski
2	252	Fundamentals of Biomechanical Analysis	Full. Prof. PhD. Aleksandar Tufekchievski
3	253	Research in Esthetical and Orthopedic Kinesiology	Prof. PhD. Mitrichka Stardelova Dzambazovska
4	254	Heart Rate Monitoring in Sports Medicine	Full. Prof. PhD. Vancho Pop-Petrovski
5	255	Research in Sexual Maturity	Full. Prof. PhD. Daniela Shukova-Stojmanovska
6	256	Complex Systems and Self-organization in Sports	Full. Prof. PhD. Robert Hristovski

7	257	Initial Methodological and Statistical Data Processing and Data Analysis	Assoc. PhD. Georgi Georgiev
8	258	Fundamentals of Research in Olympism	Full. Prof. PhD. Dushko Ivanov
9	259	Psychodiagnostics in Physical education and Sports	Full. Prof. PhD. Lenche Aleksovska-Velichkovska
10	260	Sociopathological Occurences in Physical Education and Sport	Prof. PhD. Ivan Anastasovski
11	262	Fundamentals of Research in Athletics	Full. Prof. PhD. Zoran Radikj
12	263	Fundamentals of Research in Ssports Gymnastics	Full. Prof. PhD. Orce Mitevski
13	264	Swimming: Testing and Measurement	Prof. Natasha Meshkovska
14	265	Boxing and Wrestling: Testing and measurement	Full. Prof. PhD. Vojo Nasteovski
15	266	Karate and Judo: Testing and measurement	Full. Prof. PhD. Zharko Kostovski
16	267	Volleyball: Testing and measurement	Full. Prof. PhD. Joshko Milenkovski
17	268	Basketball: Testing and measurement	Full. Prof. PhD. Milan Naumovski
18	269	Football: Testing and measurement	Full. Prof. PhD. Nebojsa Markovski
19	271	Use of Application Software for Statistical Analysis of Kinesiology Data – Statistica & SPSS for Windows	Full. Prof. PhD. Vujica Zhivkovikj
20	272	Fundamentals of Testing and Measurement in Recreational Sports	Full. PhD. Goran Nikovski
21	274	Fundamentals of Research in Physical Education	Full. Prof. PhD. Ilija Klincharov

STRUCTURE OF THE STUDY PROGRAM FOR SECOND CYCLE OF STUDIES ON KINESIOLOGY - FOUR SEMESTERS

FIRST YEAR

I semester

	OBLIGATE COURSES	Code	CR.	PVK	SR	TOT.	WEEK.
1.	Fundamentals of Research in Basic Kinesiology	2CFK17	7	55	135	190	3+2
2.	Fundamentals of Research in Social Kinesiology	2COK17	7	55	135	190	3+2
3.	Fundamentals of Research in the Applied Kinesiology	2CPK17	16*	110	320	430	4+4
	Total in first semester		30	220	590	810	10+8

II semester

	OBLIGATE COURSES	Code	CR.	PVK	SR	TOT.	WEEK.

РЕПУБЛИКА МАКЕДОНИЈА
МИНИСТЕРСТВО ЗА ОБРАЗОВАНИЕ И НАУКА

Бр. 17-40/2 од 13.03.2017 година
СКОПЈЕ

20.03.2017

17-40/2 од 13.03.2017

Врз основа на член 55 став 1 од Законот за организација и работа на органите на државната управа („Службен весник на Република Македонија“ бр. 38/00, 44/02, 52/08, 167/10 и 51/11), а во врска со член 104 став 2 од Законот за висшето образование („Службен весник на Република Македонија“ бр. 43/18, 104/18, 26/09, 83/09, 58/09, 115/10, 17/11, 51/11, 123/12, 15/13, 26/13, 41/13, 116/14, 130/14, 11/15, 26/15, 98/15, 145/15, 154/15, 30/16 и 127/16), министерот за образование и наука донесе

РЕШЕНИЕ

за почеток со работа на Студиските програми од прв циклус студии на тригодишни студии по Спортски тренери и четиригодишни студии по Физичко и здравствено образование и Студиската програма од втор циклус на едногодишни студии по Кинезиологија на Факултетот за физичко образование, спорт и здравје при Универзитетот „Св. Кирил и Методиј“ во Скопје

1. Со ова решение се утврдува дека се исполнети условите за почеток со работа на Студиските програми од прв циклус студии на тригодишни студии по Спортски тренери и четиригодишни студии по Физичко и здравствено образование и Студиската програма од втор циклус на едногодишни студии по Кинезиологија на Факултетот за физичко образование, спорт и здравје при Универзитетот „Св. Кирил и Методиј“ во Скопје.

2. Ова решение влегува во сила со денот на донесување.

Објавување

Со донесувањето Решение со бр. 17-40/2 од 13.03.2017 година, бр. 17-41/2 од 13.03.2017 година и бр. 17-458/2 од 13.03.2017 година, Одборот за акредитација и евалуација на висшето образование на Република Македонија ги акредитира студиските програми од прв циклус студии на тригодишни студии по Спортски тренери и четиригодишни студии по Физичко и здравствено образование и Студиската програма од втор циклус на едногодишни студии по Кинезиологија на Факултетот за физичко образование, спорт и здравје, Факултетот за физичко образование, спорт и здравје при Универзитетот „Св. Кирил и Методиј“ во Скопје, под номер бр. 17-387/2 од 21.03.2017 година (под наш УПН бр. 14-698 од 22.03.2017 година), 17-388/2 од 21.03.2017 година (под наш УПН бр. 14-696 од 22.03.2017 година) и 17-389/2 од 21.03.2017 година (под наш УПН бр. 14-697 од 22.03.2017 година), до Министерството за образование и наука, за утврдување на исполнителста на условите за почеток со работа на горенаведените студиски програми на Факултетот за физичко образование, спорт и здравје при Универзитетот „Св. Кирил и Методиј“ во Скопје.

Министерот за образование и наука, со Решение УПН бр. 14-696, 697, 698 од 11.03.2017 година, фирмира Комисијата за управување на испитноста на улогите во спортски со рабрана.

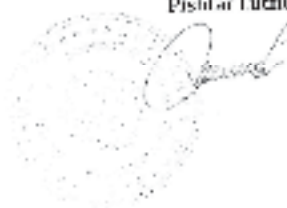

Комисијата на 10.04.2017 година, изврши увид и изготви Извешај УПН бр. 14-696, 697, 698 од 11.04.2017 година, каде е наведено дека се исполнети условите за почеток на работа на студентите подготвени од цела пилура студент на трогодишни студии по Спортски тренери и методички студии по Физички и здравствено образование и Студентската програма од втор циклус на единствени студии по Кинезологија на Факултетот за физичко образование, спорт и здравје, Факултетот за физичко образование, спорт и здравје при Универзитетот „Св. Кирил и Методиј“ во Скопје, којшто е утврдено со Извешајот на тематичко образование и Училиштот за формални и стандардни за основање на високобразовни установи и за вршење на високобразовна дејност („Слободен весник на Република Македонија“ бр. 103/10, 168/10 и 10/11).

Имајќи го во предвид наредбата, се падува како во диспозитивот на ова решение.

УЧЕЛИШТВО ЗА ПРАВНО ПРИДРСТВО: Према свој решение, може да се заклучи уреден спор, со издвојување на трикот на Училиштето за Република Македонија, во рок од 30 дена од денот на приемот на својот решение.

МИНИСТЕР,
Pishar Tutlu

Претседател на Комисијата
за управување на испитноста
на улогите во спортски со рабрана
Д-р. Милош Радановиќ

II CYCLE MASTER STUDIES IN SPORT MANAGEMENT

Head: Prof. PhD. Dushko Ivanov

Secretary: Acc. Prof. PhD. Andriana Misovski

STRUCTURE OF THE STUDY PROGRAM FOR SECOND CYCLE STUDIES FOR KINESIOLOGY - TWO SEMESTERS

I semester

	Obligate courses	Code	Cr.	PVK	SR	TOT.	Week.
1.	Fundamentals of Management		9	90	180	270	3+2
2.	Sport Management and Marketing Research		9	90	180	270	3+2
3.	Fundamentals of Social Science Research in Kinesiology		9	90	180	270	3+2
4.	Elective Course 3		3	20	40	60	1+0
	Total first semester		30	290	580	870	10+6

II semester

	Elective courses	Code	Cr.	PVK	SR	Tot.	Week.
1.	Elective Course from list 1		8	75	165	240	3+1
2.	Elective Course from list 2		8	75	165	240	3+1
	Master's Thesis		14	150	300	450	5+5
	Total second semester		30	300	630	930	11+7

List 1 Elective course from the Faculty of Physical Education

Elective courses	Code	Cr.	PVK	SR	Tot.	Week.
Fundamentals of Research in Physical Education		8	75	165	240	3+1
Fundamentals of Research in Sport		8	75	165	240	3+1
Fundamentals of Research in Recreational Sports		8	75	165	240	3+1
Fundamentals of Research in Kinesitherapy		8	75	165	240	3+1

Note: Students choose one of the elective courses on List 1.

List 2 for elective Course from the Faculty of Economics

Elective courses	Code	Cr.	PVK	SR	Tot.	Week.
Service Activities Marketing		8	75	165	240	3+1
Consumer Behavior in Sport and Events		8	75	165	240	3+1
Strategic Management		8	75	165	240	3+1

Note: Students choose one of the elective courses on List 2.

List 3 for optional Course from the offered free list of elective Courses at UKIM

Elective courses	Code	Cr.	PVK	SR	Tot.	Week.
UKIM		3	20	40	60	1+0

Note: Students choose one elective course on the List.

DOCTORAL STUDIES

STUDY PROGRAM

III CYCLE DOCTORAL STUDIES *и* KINESIOLOGY

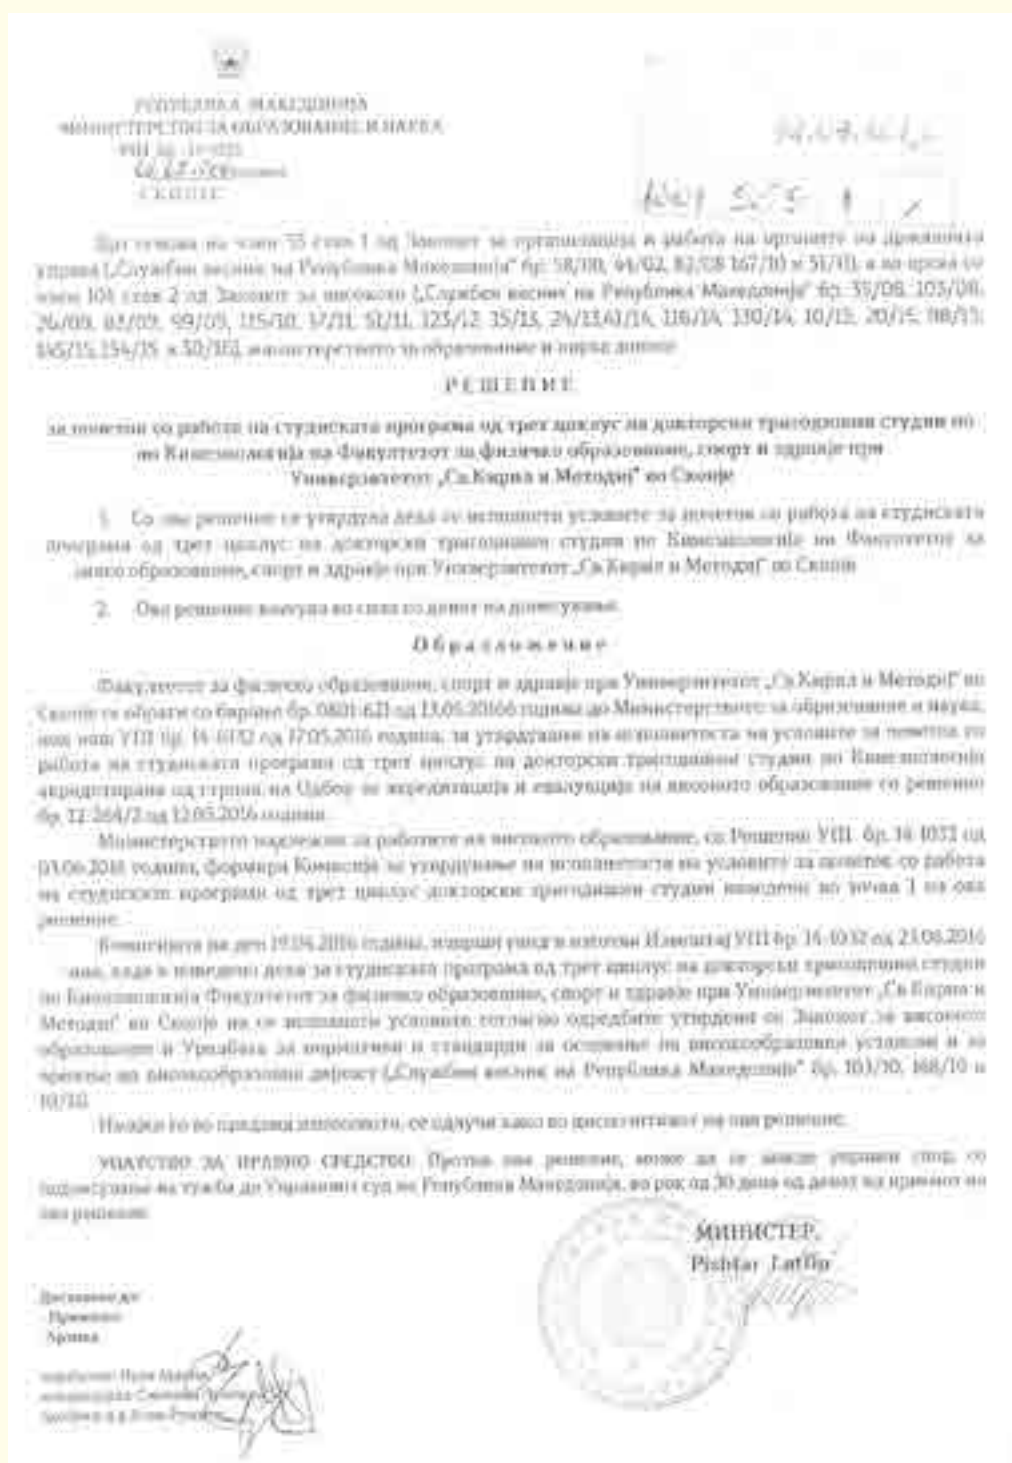

Head: Prof. PhD. Daniela Shukova Stojanovska

The study program is in duration of 3 years (6 semesters), and it belongs to the field of social sciences (code 5.00) and, specifically, to the scientific field of kinesiology (code 5.04). The scope of the study program is 180 credits, i.e. 4,800 hours of theoretical and practical teaching.

First year, first semester						
(Lectures: September 15 to December 31, exams: 15 to 31 January)						
	Co de	Cr .	PVK	SR	Tot.	Wee k.
Obligate Course from UKIM - scientific-research ethics (acquisition of generic knowledge and research skills)		4	22	88	110	2+1
Elective Course from a group of Courses at UKIM (list A) - methodology of scientific research (acquisition of generic knowledge and research skills)		4	22	88	110	2+1
Elective Course from a group of Courses at UKIM (list B) - (acquisition of generic knowledge and research skills)		4	22	88	110	2+1
Elective course in the field of kinesiology (from list B)		6	35	125	160	2+2
Elective course in the field of kinesiology (from list B)		6	35	125	160	2+2
Elective course in the field of kinesiology (from list B)		6	35	125	160	2+2
Total:		30	160	640	800	21

First year, second semester						
(classes: 1 February to 15 May, exams: 15 May 15 June)						
	Code	CR.	PVK	SR	TOT.	WEE K.

1.	Independent research and results publication		28
2.	Doctoral seminar with presentation of the paper		2
	Total:		30
Third year, sixth semester			
Num.	Activity	C-ID	EKTS
1.	Research workshop		3
2.	Independent research and writing dissertation		25
3.	Independent research and writing the paper		2
	Total:		30
	Total: I + II + III year:		180

Decision to start with the study program of the third cycle doctoral three-year studies in Kinesiology at the Faculty of Physical Education, Sport and Health, 2016.

SCIENTIFIC RESEARCH ACTIVITY

The first steps in the field of physical culture in Macedonia are made by social institutions such as the Institute of Physical Culture (1954-1957) and the Republic Institute for Physical Culture (1957-1970). The Institute for Medical, Experimental and Applied Physiology of the Medical Faculty, the Institute for Sports Medicine, the Republic Commission for the History of Physical Culture within the Committee of Physical Culture of SRM and others, have also made an important contribution.

The teaching staff of the Faculty of Physical Education, in accordance with the expansion of its activity, improved and progressed permanently and continuously. In addition to the primary teaching staff and their associates, the number of new intellectual forces and potentials has naturally grown. With the opening of the postgraduate studies at the Faculty, a great leap forward in the development of its cadre has been noticed.

The first scientific-research projects, though within the scope of the needs for preparation of the habilitations, the master's thesis and the doctoral dissertations, formed the basis for further researches. Taking part in professional and scientific papers at various scientific symposiums and their publication in scientific and professional journals, also established the tradition of permanent improvement.

With the changes in the organizational structure of the overall operation of the Faculty of Physical Education in Skopje, the organization of the scientific research activity also changed, that is, the individuality in professional and scientific improvement came to the fore.

The first project researches were chronologically prepared and realized by the first generation of scientific- research staff, as follows:

- *Valorization and categorization of sports in the SRM and separately*
- *Valorization and categorization of sports in Skopje- Head, Prof. PhD. Aleksandar Naumovski.*
- *Determining the physical development and functional abilities of students at the Faculty of Physical Education in Skopje – Head, Gjorgji Spasov, PhD.*
- *Determining the morphological development and motor skills of students at the University „Ss. Cyril and Methodius“ in Skopje, Head, Prof. PhD. Mirco Savoski.*

Over the first period, the lack of technical equipment caused the processing of research data to be performed at other, more convenient centers such as Zagreb, Ljubljana, etc. By providing the necessary equipment and software, the situation radically improved. Many scientific and professional papers have found their place in the renowned magazine „Physical Culture“, published by the Union of Pedagogues of Macedonia. Over the next period, a significant amount of research was published in various magazines on the Balkans and beyond.

The successful defense of the habilitation papers of professors: M.A. Andon Simovski, M.A. Cedo Sharevski, and M.A. Stojan Trninić, were noted in the first decade. In the scientific research work of the Faculty, in the period until 2002, 4 habilitations and a number of defended master theses and doctoral dissertations were delivered by the teaching and associate staff. Thus, according to the available source, primary and secondary materials, we present to you the research at the level of master's theses and doctoral dissertations, that directly and indirectly gave way and made their marks in the research work of the Faculty of Physical Education in Skopje. During the last two decades, the Faculty, through its staff, Prof. PhD. Georgi Gorgiev, Prof. PhD. Robert Hristovski, Prof. PhD. Zarko Kostovski and Prof. PhD. Serjozha Gontarev is ever more present in the scientific-research field in our country and Europe.

Among the top ten scientists at UKIM from the Faculty of Physical Education, Sport and Health, in the period of 2014-2017

The Faculty had at its disposal cadres with good potential, necessary for successful realization of the educational process and the scientific-research work. At the beginning, with a modest number of teachers and associates and the indispensable minimum capacity of administrative and technical staff, the Faculty successfully went through the first years of its consolidation. At the end of the first decade of development, the social community realised that the Faculty has a significant influence on the improvement of the image of the cadres in the educational system and sport in Macedonia. Due to the old age of the first teaching staff of the Faculty, there came a period of engagement and employment of new and young cadres.

Over the following period, the following projects were realized:

- *"Standards and criteria for programmed training and teaching in physical education in the educational system and the army of the Republic of Macedonia"*
- *Prof. PhD. Gjorgji Spasov - Head Researcher*
- *„Status and comparison of the anthropometric and biomotor latent structure of respondents aged 11 and 18"*
- *Prof. PhD. Aleksander Naumovski - Head Researcher*
- *„Modeling of excitatory waves in neuromuscular communication"*
- *Ass. Prof. PhD. Robert Hristovski - Head Researcher*

Papers published in the International Journal of the Faculty of Physical Education, Sport and Health

Vol 1, No 1

1. Milan Naumovski, Boro Daskalovski, Luka Popovski & Zoran Stanisic, THE INTERCONNECTION OF THE MANIFESTED QUALITATIVE AND QUANTITATIVE VARIABLES AMONG PARTICIPANTS OF THE FIRST MACEDONIAN BASKETBALL LEAGUE.
2. Lidija Todorovska, Vujica Zivkovic, Slobodan Nikolic, Jasmina Pluncevic, Elizabeta Sivevska, Eli Handziska, Ivanka Karadjozova, ANTHROPOMETRIC CHARACTERISTICS OF MACEDONIAN CHILDREN AT THE AGE OF 9-14 YEARS.
3. Lence Aleksovska - Velickovska, Natasa Meskovska, Luka Popovski & Zoran Stanisic, FACTOR STRUCTURE OF PSYCHOLOGICAL SPACE IN ATHLETES -MEMBERS OF NATIONAL TEAMS FROM DIFFERENT SPORTS IN MACEDONIA.
4. Robert Hristovski, Natalia Balague, Boro Daskalovski, Vujica Zivkovic, Lence Aleksovska Velickovska & Milan Naumovski, LINEAR AND NONLINEAR COMPLEX SYSTEMS APPROACH TO SPORTS. EXPLANATORY DIFFERENCES AND APPLICATIONS.
5. Tušak Matej, Kovač Eva, Tkavc Suzana, and Masten Robert, SPORT, HEALTH AND WORK EFFICIENCY IN SLOVENIAN ARMED FORCES.
6. Daniela Sukova-Stojmanovska, PERCENTILE DISTRIBUTION OF BMI AT 9 YEAR.
7. Marko Aleksandrovic, Dejan Madic, Tomislav Okicic, Dragoljub Petkovic, Srdzan Petrovic, STRUCTURE OF STRENGTH SCOPE WITH LIFE GUARDS.
8. Aleksandar Simeonov, Zoran Radic & Aleksandar Rakovic, TECHNIQUE FOR WALKING AND RUNNING WITH PROGRESSION METHODOLOGY AND TECHNIQUE.
9. Zarko Kostovski, Elena Soklevska - Ilievski, Zorica Kostovska, FACTORIAL STRUCTURE OF KARATE ELEMENTS IN SPORT FIGHT ON KARATE SPORTSMEN FROM R.MACEDONIA.
10. Ivan Anastasovski, IMPACT OF AGE AS A FACTOR OF DEVIANT BEHAVIOUR ON VISITORS IN THE SPORTS EVENTS IN REPUBLIC OF MACEDONIA.
11. Georgi Georgiev, Nebojsa Markovski, Viktor Mitrevski, THE CONNECTION OF MORPHOLOGICAL DIMENSIONS WITH VARIABLES FOR ASSESSMENT THE LEGS' EXPLOSIVENESS AND START SPEED.

12. Jovan Jovanovski, Vladimir Vuksanovic, Metin Dalip & Agan Redzepagic, THE CASE.
13. Natasa Meskovska and Daniel Trbogazov, STRUCTURE OF SOME RELEVANT BIOMECHANICAL PARAMETERS AND RELATIONS WITH SUCCESS IN THE MEN'S SWIMMING DISCIPLINE 200 METERS INDIVIDUAL MEDLEY SWIMMING AT THE OLYMPICS GAMES HELD IN SYDNEY 2000.
14. Aleksandar Tufekcievski & Aleksandar Aceski, ORGANIZATIONAL STRUCTURE, REPRESENTATION, SUGGESTIONS FOR DEVELOPMENT OF SCHOOL SPOTS IN MACEDONIA.
15. Galina Petrova Dyakova, DETAILED CONTROL OF BODY MASS IN FEMALE STUDENTS.
16. Mitevski Orce, Spasovska Katerina, Popeska Biljana, ADDITION TO THE CLASSIFICATION OF THE GYMNASTIC ELEMENTS.
17. Rašid Hadzic, Duško Bjelica, Stevo Popovic, COMPARATIVE STUDY OF ANTHROPOMETRIC MEASUREMENT AND BODY COMPOSITION BETWEEN ELITE BASKETBALL AND VOLLEYBALL PLAYERS.
18. Katerina Spasovska & Orce Mitevski, SOME RELATION BETWEEN TESTS FOR ASSESSMENT MOTOR COORDINATION AND EXPLOSIVES POWER MEASURES OF PERFORMANCE OF SUCCESSFUL GYMNASTIC ELEMENT FRONT HANDSPRING OF THE VAULT.
19. Branimir Mikic, Danilo Bojanic, Jasmin Mehinovic, Alija Biberovic, Biljana Mikic, TRANSFORMATION EFFECTS FROM PARTIAL QUANTITATIVE DIFFERENCES OF MOTOR ABILITIES OF STUDENTS WITH SPECIAL NEEDS.
20. Aleksandar Aceski, Aleksandar Tufekcievski, ANALYSES OF THE PRESENCE OF DEVELOPMENTAL SEQUENCES FOR RUNNING IN SCHOOL BOYS USING COMPONENT BODY APPROACH.
21. Zvezdan Savic, Nenad Stojiljkovic, Dejan Lolic, CARDIOVASCULAR REACTIONS OF YOUNG SKIERS BASED ON CHANGES IN ALTITUDE.
22. Mitricka Dz. Stardelova, Angel Dzambazovski, Valentina Krstevska, Nevenka Panovska, KINESIOLOGY - MEDICAL APPROACH TO THE STRESS REMOVAL AS A PROBLEM IN PROFESSIONAL SPORT FOR OCCURRENCE OF FATIGUE AND OVERTRAINING FROM THE ASPECT OF CONTEMPORARY KINESIOTHERAPY AND PHYSIOTHERAPY.
23. Biljana Popeska & Katerina Mitevska – Petrusheva RELATIONS BETWEEN ANTHROPOMETRIC VARIABLES AND MOTOR TESTS USED AT 6 YEARS OLD MALE CHILDREN.
24. Goran V. Šekeljic & Zivorad M. Markovic, ARE THERE DIFFERENCES BETWEEN SEXES IN THEIR INTEREST FOR SPORT AND PHYSICAL EDUCATION?
25. Osmo Bajric, Pane Mandic, Vidosav Lolic, Velibor Srdic QUALITATIVE CHANGES OF MOTORIC ABILITIES OF FOOTBALLERS UNDER INFLUENCE OF THE PROGRAMMED TRAINING EXERCISE.
26. Andrijana Misovski, Josko Milenkoski, Serdar Uslu, COMPONENT FACTOR ANALYSIS ON THE VARIABLES FOR ASSESSMENT OF ANTHROPOMETRICAL CHARACTERISTICS OF YOUNG FEMALE VOLLEYBALL PLAYERS IN R. MACEDONIA.

Vol. 1, No 2

27. Danilo Aćimović, Omer Špirtović, Rašid Hadžić, APPLICATION OF FAYOL'S PRINCIPLES OF MANAGEMENT IN PHYSICAL EDUCATION.
28. Aleksandar Aceski, Aleksandar Tufekchievski, ASSESSING THE DEVELOPMENT LEVEL OF BASIC MOTOR SKILLS OVERHAND THROW IN CHILDREN AGED 7 TO 10 YEARS.

29. Ivan Anastasovski & Sofche Markovikj, THE VIEWS AND OPINIONS OF PUPILS FROM KUMANOVO'S PRIMARY SCHOOLS, MEMBERS OF SPORTS SCHOOLS, ABOUT THE TEACHING OF PHYSICAL AND HEALTH EDUCATION.
30. Duško Bjelica, Jovan Gardasević, Georgi Georgiev, Stevo Popović, Jovica Petković, VALIDITY OF THE APPLIED MOTOR TESTS FOR ESTIMATING BASIC MOTOR ABILITIES OF FOOTBALL PLAYERS - U15.
31. Danijela Bonacin, Dobromir Bonacin, Franjo Lovrić, Žarko Bilić, Stipe Blažević, Vesela Kostovska, LATENT STRUCTURE OF SOCIOLOGICAL INDICATORS IN GRAMMAR SCHOOL STUDENTS.
32. Natasha Bundovska, Valentina Dojchinovska-Ilioska, Sofche Markovikj, DETERMINE THE TYPOLOGY OF ARTICLES BY ITS PUBLISHING.
33. Dobromir Bonacin, Stipe Blažević, Žarko Bilić, Zorica Kostovska, Danijela Bonacin, CHANGES IN RELATIONS BETWEEN LATENT MORPHOLOGICAL DIMENSIONALITY AND EXPLOSIVE LEG POWER OF BOYS AGED 7-9 YEARS.
34. Ivan Čillik, Martin Pupiš, Aleksandar Raković, Zoran Radić, Aleksandar Simeonov, Ratko Pavlović, RESPONSE TO TRAINING LOAD IN MESOCYCLE OF THE ATHLETES IN ATHLETIC SPRINTS.
35. Seryozha Gontarev, Vujica Zivkovic, Nebojsa Markovski, DEVELOPMENTAL CHANGES IN EXPLOSIVE FORCES IN STUDENTS OF BOTH SEXES BETWEEN THE AGES OF 6 TO 14 YEARS.
36. Zoran Grgantov, Boris Milavić, Damir Jurko, RELATIONS OF SPORT MOTIVATION ORIENTATION AND COHESION IN YOUNG MALE AND FEMALE VOLLEYBALL PLAYERS.
37. Rašid Hadžić, Dobrislav Vujović, Georgi Georgiev, Aldijana Muratović, BASIC MOTOR SKILLS IN THE PREDICTION OF OUTCOME SUCCESS OF THE HIT'S POWER ON THE BALL IN FOOTBALL.
38. Robert Hristovski & Natàlia Balagué, HARNESSING THE INTRINSIC ENVIRONMENT BRAIN - BODY METASTABILITY. TOWARD MULTI - TIME - SCALE LOAD STIMULATOR/SIMULATOR SYSTEMS.
39. Predrag Jelenković, Miljan Hadžović, Igor Stanojević, Marko Aleksandrović, COMMUNICATION AMONG ACADEMIC COMMUNITY, LOCAL SELF-GOVERNMENT AND CIVIC INITIATIVES WITH THE PURPOSE OF ORGANIZING SWIMMING LESSONS FOR PERSONS WITH DISABILITIES IN NIŠ.
40. Natasha Meshkovska, Daniel Trbogazov, Sanja Trajkovska and Vladan Markovic, THE INFLUENCE OF SOME RELEVANT BIOMECHANICAL PARAMETERS ON THE RESULTS IN THE DISCIPLINE 100 METERS IN BUTTERFLY SWIMMING IN WOMEN'S SWIMMING EVENTS AT THE OLIMPIC GAMES IN ATLANTA – 1996.
41. Milan Naumovski, Lenche Aleksovska-Velichkovska, Borche Daskalovski & Luka Popovski, MULTIVARIATE AND UNIVARIATE DIFFERENCES OF VARIABLES FOR ASSESSMENT OF THE MORPHOLOGICAL CHARACTERISTICS IN RESPONDENTS FROM I, II, III I IV YEAR.
42. Ratko Pavlović, Aleksandar Raković, Zoran Radić, Aleksandar Simeonov, EFFECTS OF THE TRAINING MICROCYCLE ON THE SUCCESS IN MARATHON.
43. Popovski Luka, MOTIVATION OF THE HIGH SCHOOL STUDENTS ENGAGED IN SPORTS.
44. Goran Šekeljić & Zana Bojović, DOES TEACHING PHYSICAL EDUCATION CONTRIBUTE TO ADOPTING A HEALTHY LIFESTYLE?
45. Elizabeta Sivevska-Smilevska, Lidija Todorovska, Vujica Zivkovic, Nikola Jankulovski, Slobodan Nikolic Vesela Malevska-Ivanovska, Ljudmila Efremovska, Jasmina Pluncevic-Gligorovska, BODY COMPOSITION AND BODY FAT DISTRIBUTION IN ADULTS WITH DIFFERENT BODY MASS INDEX.
46. Aleksandar Tufekchievski, Aleksandar Aceski, Robert Hristovski, DETERMINING THE BIOMECHANICAL STATUS OF THE BASIC MOTOR SKILLS.

47. Lenche A. Velichovska, Milan Naumovski, Gino Strezovski, Nebojsa Markovski, Natasha Meshkovska, DIFFERENCES IN SOME GENUINE PERSONALITY TRAITS BETWEEN ATHLETES FROM DIFFERENT SPORTS DISCIPLINES AND NOT ATHLETES IN R. MACEDONIA.
48. Andrijana Zafirovska, STRUCTURE OF ANTHROPOMETRIC CHARACTERISTICS OF WOMEN VOLLEYBALL PLAYERS AT THE AGE OF 14-18, WHO TOOK PART IN THE YOUTH TOURNAMENTS IN THE REPUBLIC OF MACEDONIA IN THE SEASON 2009/10.

PUBLISHING ACTIVITY

The first professional applications date back from the opening of the Faculty of Physical Education in Skopje, with which the basic literature necessary for successful study was enriched.

At the beginning, the determination of a place where the teaching-scientific staff could professionally and scientifically realize their scientific research work played a great role. The ambitions of the Faculty for integral space for scientific research have largely been realized. The teaching and associate staff, and the students, over the past period, in the field of professional and scientific improvement, found opportunities for affirmation in the journal *Physical Culture*, published by the Union of Sports Teachers and numerous other domestic and international professional and scientific journals. A number of papers have been published that, directly or indirectly, contributed to the development of the scientific work in this field. The lack of own space for a more direct pragmatic way to advance the scientific research work of the Faculty was short-lived and inconsistent.

Scientific Journal „Research in Physical Education, Sport and Health“

The presentation of the first issue of the scientific journal: “Research in Physical Education, Sport and Health” (ISSN 1857-8152), published by the Faculty of Physical Education, Sport and Health as part of the “Ss. Cyril and Methodius” University in Skopje was a real pleasure. Chief Editor: Prof. PhD Vujica Zivkovic and editors: Prof. Phd Lence Aleksovska Velichkovska and Prof. Phd Milan Naumovski, 2012-2016.

The hope of the Faculty was that these pioneering steps will create an excellent foundation for scientific and professional operations among all present and future researchers in the field of physical education, sports, recreation and kinesitherapy, both in the country and abroad. The ambitions of the magazine are for it to find its place as quickly as possible, with hard work and dedication, in the world family of journals in this field.

The first edition of the journal „Research in Physical Education, Sport and Health“, published by the Faculty of Physical Education, Sport and Health at the University “Ss. Cyril and Methodius University” in Skopje.

The journal is published twice a year, in electronic and written form,

as a multidisciplinary journal, publishing original scientific papers, short announcements, invitations to lectures, original papers published in review and professional papers by domestic and foreign authors. The magazine is published in English. The eagerness for perseverance of this magazine’s ambition to join the big global family of Sciences, which would be another contribution to the elevation of the global scientific thought, was expressed at the opening ceremony with the words: *the longest journey begins with the first step*.

The magazine is constantly evolving, and it represents a place where the professional and scientific staff from the Republic of Macedonia and beyond can express the professional and scientific knowledge of their research work.

Списанието континуирано се развива, а во него стручните и научните кадри од Република Македонија и пошироко, имаат свое место за изразување на стручните и научните сознанија од својата истражувачка работа.

Jubilee tenth issue

After the publication of the tenth issue of the international scientific journal of the Faculty „RESEARCH IN PHYSICAL EDUCATION, SPORT, AND HEALTH“, it became relevant for the evaluation of the papers for designation of academic-scientific titles and mentorships. Editor-in-chief: Prof. PhD. Lenche Aleksovska Velichkovska and editors: Prof. PhD. Ivan Anastasovski and Prof. PhD. Milan Naumovski, 2016-2020.

Professional journal of the Faculty - „Kondicija“

KONDICIJA

Professional journal for physical education, sport and health

ISSN: 1857 - 9620 (Print)

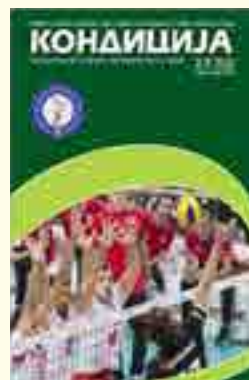

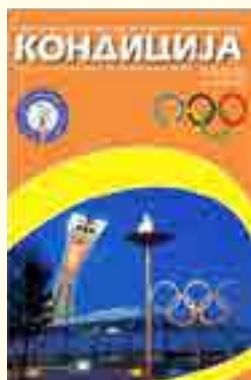

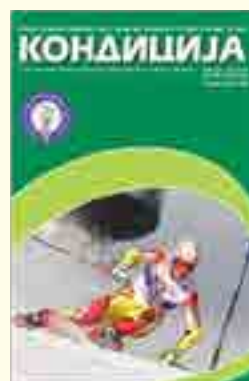

ISSN:857-8160 (Online)

UDK:796/799:37

Publisher: Faculty of Physical Education, Sport and Health in Skopje

“Kondicija” is a professional sports journal that publishes titles related to social, biomedical, natural and mathematical and humanistic sciences in the context of sports, physical education, sports management, sports infrastructure, sports informatics, rehabilitation, recreation, sports journalism, sports marketing, sports psychology, sports nutrition, sports medicine, biomechanics and many other areas.

First year of publishing: 2014.

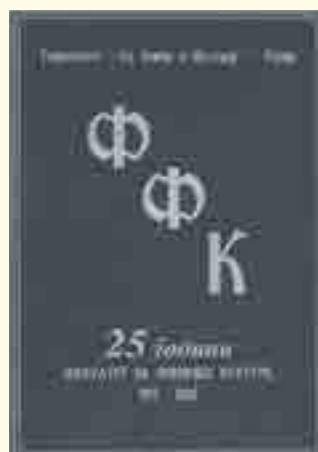

Monographs

During its 40 years of existence, the Faculty has published the following monographs:

On the occasion of its 10-year jubilee

On the occasion of its 25th jubilee

On the occasion of its 35th jubilee

DOMESTIC AND INTERNATIONAL COLABORATION OF THE FACULTY

The modern trend of integration at the University of "Ss. Cyril and Methodius" in Skopje, opened the door of increased inter-faculty colaboration. This resulted in a larger transit of the professional staff from the Faculty of Physical Education, Sport and Health at other faculties of the University and vice versa, larger involvement of eminent staff from other faculties in the realization of the programs of the Faculty. This trend prompted enhanced inter-university colaboration, with a particular impact on the realization of the ambitions for greater international colaboration of the Faculty of Physical Education, Sport and Health. For the beginning, as our primary goal, the region of the Balkans which holds traditional values for various types of colaborations, prompted the

idea of pragmatic meetings among the Deans and their closest associates with the purpose of launching a new cycle of colaboration, primarily between the countries in which the memory of living together stil perseveres.

The Faculty has signed a memorandum for colaboration with: Veliko-Trnov's University „Ss. Cyril and Methodius“, 2012; Faculty of Physical Education and Sport in Banja Luka, 2011; Faculty of Sports and Physical Education in Nikshich, 2012; Faculty of Sport and Physical Education in Sarajevo, 2012; Faculty of Kinesiology, University of Zagreb, 2012; Faculty of Kinesiology in Split, 2012; National Sports Academy in Sofia, 2017, Faculty of Sport in Ljubljana, 2017, Gazi University, Ankara, 2018.

Deans of the two faculties, Ankara and Skopje

Colaboration with Gazi University of Ankara, 2018

Colaboration with the Faculty of Sport in Ljubljana, R. Slovenia, 2018

The visit of the Faculty of Sport in Ljubljana

As part of the project: Erasmus +, KA2: Cooperation for innovation and the Exchange of Good practices, KA201, Strategic Partnership for school education. 2017-1-MK01-KA201-035380 - „Improving the quality of physical education at primary education level and presenting its relevance and importance for the health and good of coming generations, a visit to the Faculty of Sport in Ljubljana was realized. The possibilities for future colaboration on other projects were also discussed. In addition, the kind hosts made a presentation of their curricula and study programs, then they gave us a tour of their Institute for Sports, with all its laboratories and sports infrastructure.

Colaboration with the Ministry of Education and Science of the Republic of Macedonia

Република Македонија
Министерство за образование и наука

The new curricula and educational programs for primary school education envisage the introduction of the method „TANDEM“ in the class of physical and health education in the elementary school education, i.e a teacher of physical and health education together with the class teacher shall realize the lesson.

This teaching approach has been successfully operating in many of the world's leading education centers for many years and provides excellent results in the proper psychophysical growth and development of children, reduction of body

deformities, forming healthy living habits, etc. Finally, we must understand that the prevention is much cheaper than the curative or in other words PHYSICAL ACTIVITY CAN SUBSTITUTE MANY DRUGS, BUT NONE CAN REPLACE IT!

The Minister of Education with the team,
new visions and reforms in Primary Education

The Faculty is in permanent collaboration with the Macedonian Olympic Committee, the Agency for Youth and Sports, as well as with various federations and associations. As a result of this collaboration, multiple seminars, scientific gatherings, thematic conferences, and many other activities, were held..

The project Continuous Education of teachers of Physical Education in collaboration with the Agency for Youth and Sport, 2017

Continued education of physical education teachers, 2017

Thematic conference of the MOC, AYS and FFOSN "Science as a factor for development of sport in the Republic of Macedonia,,

At this scientific gathering, several lectures about the analysis of the current state of the Macedonian sport, the legislation of sport, the valorization and categorization of sports, the health protection of athletes, the psychological-pedagogical aspects, as well as the analysis of school sport, were held.

In joint organization of the Macedonian Olympic Committee and the Faculty of Physical Education, Sport and Health (FFOSN), a seminar for sport management was held, where students from the first and second cycle of studies from FFOSN, future sports administrators, teachers and trainers, acquired the basic knowledge in the field of sports administration, the pyramid structure of the Olympic and sports system, strategic and financial management, sports medicine, as well as many other areas, which are important for achieving the top sports results of our best athletes, i.e the top sport administration is vital for achieving top sports results!

Colaboration with sports federations from the Republic of Macedonia

The successful colaboration with these organizations dates back to several years ago, which resulted in signing Colaboration Memorandum and achieving top sports results

10 years of colaboration of the Karate Federation and the Faculty of Physical Education Sport and Health with Emil Pavlov, the European karate champion , 2018

Sport unites us

National Handball Federation and the Faculty of Physical Education Sport and Health, 2018

Cyril and Methodius" in Skopje. He has also been a manager of "KK Vardar 200" from Skopje, and "KK Karpos Sokoli" from Skopje.

He was a contributor in the project "Continued Monitoring of the Achievements of the Students – Athletes at the Sports Academy – Skopje".

DEPARTMENT OF MONOSTRUCTURAL SPORTS ACTIVITIES

Psychomotor Basics

PhD. **Vladimir Vuksanovic**, Associate Professor

Born on 28.02.1977 in Skopje. Graduated at the Faculty of Physical Education in Skopje. He obtained his Master's degree at the same Faculty, with Master's thesis: "Changes of the Maximum Power Potential of the Flexors in the Elbow Joints, of Students at the Faculty of Physical Education in Skopje, After Six Weeks of Training with Standard and Modified Continued Straining." He obtained his PhD degree in 2013, with a PhD thesis: "Comparison of the Changes of the Muscle Power Potential of the Elbow Joint Flexors and Extensors, of Adolescents, After 6 Weeks of Training with Modified Continued Muscle Straining".

He has published more than 40 expert and scientific works.

In 2017, he participated in the creation and preparation of 12 mandatory subjects, in the sports field, for three sports: "alpinism and sports climbing", "stamina boosting" and "cycling".

He has been involved in a couple of clubs as a contributor – stamina coach ("Energy", "FK Rabotnicki", "FK Sileks"), where he achieved international success in the sport. In 2014, he was an instructor – animator in the snowboard club "Polar" (Skopje), in which he seasonally works with about 100 minors, as an instructor/tutor (snow sports/water sports).

He is an author of the book "Manual for Mountain Guides", published by the Macedonian Federation for Mountain Sports. He is present in the sport through his involvement as a stamina coach in few teams ("Energy", "ANDI", "FK Metalurg", FK "Rabotnicki"). Since 2008, he has been a secretary of the Macedonian Association of Snow Sports Instructors – MAISS and has participated in seminars

for ski and snowboard trainers in Macedonia. In 2010, he was one of the pillars of the organization and realization of the meeting of the Board of IVSS (INTERSKI – International) in the ski center “Kozuv”.

He is actively working for improving the staff for the needs of alpinism and sports climbing.

Also, he has been active in the aero club “Skopje” since 1993. Moreover, he owns a license for flying a glider.

Sports Gymnastics

PhD. **Orce Mitevski**, Full-time Professor

Born on 26.07.1955 in Sveti Nikole. Graduated at the Faculty of Physical Education in Belgrade. He obtained his Master's degree at the same Faculty in 1984, with a Master's thesis "Dependency of the Student Success, Regarding Sports Gymnastics, on Their Biomotor Abilities." In 2000, he obtained his PhD degree, with a PhD thesis: "Latent Connection of the Anthropometrical and Motoric Factors with the Successful Performance of the Gymnastic Elements of Students Aged 17."

He has published more than 60 expert and scientific works in this country and abroad, in the field of sports gymnastics. In the research field, he has put a special emphasis on the latent structure of the gymnastics elements, of the manifested and latent morphological and motoric space and their influence on the successful performance of the gymnastics elements and gymnastics components.

He is the author of the schoolbooks: "Methodology in Sports Gymnastics", 2006, "Sports Gymnastics Practicum", 2003, "Manual for Grading the Gymnastics Elements and Components in Sports Gymnastics", 2003.

He has managed the project: "Development of the Anthropometrical and Motoric Manifested and Latent Dimensions of Both Young Men and Women in Republic of Macedonia", FFK, Skopje (2005). Moreover, he was a

contributor in the Project for Valorization of the Sports Activities in Republic of Macedonia, SIZ of physical culture, Skopje (1988). As an active contributor in "DTV Partizan", he influenced the improvement of the coaching staff and the competitive potentials.

PhD. **Katerina Spasovska**, Assistant professor

Born on 14.10.1974 in Skopje. Graduated at the Faculty of Physical Education in Skopje. She obtained her Master's degree at the same Faculty in 2008. In 2013, she obtained her PhD degree, with a PhD thesis: "Structure of the Anthropometrical Characteristics, Motoric Abilities and Psychological Features and Their Influence on the Technical Performance of the Elements of Sports Gymnastics, Regarding First Year Student at the Faculty of Physical Education in Skopje".

She has published more than 60 expert and scientific works. Her applicative activity in one period is reflected by the work as a sports journalist in the sports journal "SKOK", and later on in the daily sports newspaper "Sport Pres", where the sports gymnastics was her primary focus in her work as a journalist. Afterwards, she has worked as a coach and instructor in the realization of different fitness programs. She has actively participated in the execution of certain corrective programs in primary schools.

Katerina has received an acknowledgement for special contribution in the affirmation of the sports gymnastics by the Skopje Sports Association.

She has participated in few projects "Continued Improvement of the Physical

Education Professors, Base for Professional Advancement in Republic of Macedonia (2012- 2017); "Contemporary Methods and Approaches in the Realization of the Physical and Health Education Curriculum for the Fourth and Fifth Grade Teachers (2016)".

Under the auspices of AMS and organized by FUSM, she was part of the project: "School Sports Leagues", and within the same project, she was a secretary of the FUSM subproject "Young Referees", in collaboration with the four national sports federations, FFM, RFM, MKF and OFM (2017).

She was a coordinator in a couple domestic projects: "Gymnastics for Preventing and Correcting the Bad Body Posture" (2015), a project which is under the auspices of the city of Skopje, and realized by the association for improving the gender equality and youth care "Ekvilibrium"; "Choose the Right Sport", which is under the auspices of AMS, and realized by the Association of Macedonian Sports Federations (2017).

DEPARTMENT OF THEORETICAL AND METHODICAL RESEARCH

Didactics and Methodology of the Physical Education

PhD. **Ilija Klincarov**, Full-time Professor

Born on 30.09.1970 in Kavadarci. Graduated at the Faculty of Physical Education in Skopje. He obtained his Master's degree in 1977, with a Master's thesis: "Establishing the Optimal Methodology of the Provided Elements of the Sports Games in the Study Plans for Primary Education". In 2001, he obtained his PhD degree, with a PhD thesis: "Optimal Methodology and Realization of the Curriculum Regarding the Physical and Health Education Subject in the Primary Education in Republic of Macedonia."

He has published many expert and scientific works. He is the author of three study

guides and an active member in the Association "Sport for All" in Macedonia, and also a member of the international commission FIEP.

As a young researcher and contributor – researcher, he has participated in three projects: "Establishing the Specialty of the Variables of Some Motoric and Morphological Dimensions of the Macedonian Army Members", MON (1994-1996); "Measures and Criteria for Programed Training, Physical Education Curriculum, Sport and the Army of Republic of Macedonia", MON (2000 – 2002); "Hedonistic Approach in the Physical Education as a Factor for Improving the Quality of Living and Studying", MON (2004 – 2006).

He is an author of two manuals and three practicums.

PhD. **Seojza Gotarev**, Associate Professor

Born on 12.09.1964 in Skopje. Graduated on 24.04 1991 at the Faculty of Physical Education in Skopje. He obtained his Master's degree at the Faculty of Physical Education in Skopje in 1996, with a Master's thesis: "Establishing the Biomechanical Structure and Optimality of the Methodology for Studying the Athletic Disciplines". In 2007, he obtained his PhD degree at the Faculty of Physical Education, with a PhD thesis: "Influence of some Psychosocial and Demographical Factors on the Physical Activity of Young People".

He has published more than 200 professional and scientific works.

He has been a contributor in many projects in this country and abroad, like the projects for creating an information system for monitoring the top athletes in Republic of Macedonia, "Professional System for Discovering Talented Athletes", "Influence of some Psychosocial Factors on the Motivational Preparedness for Changing the Habits of the UKIM Students Regarding the Physical Activity", "Motivation of the Students for Being Physically Active: Theory for Self-Determination", "Contemporary Methods and Approaches in the Realization of the Physical and Health Education Curriculum for the Fourth and Fifth Grade Students in the Primary Education and Many Others."

He is a coauthor of one high school schoolbook: "Theoretical Base and Sport Methodology". He is also a coauthor of three scientific monographs. Moreover, he is an author of one professional book – manual "Aerobics". As a contributor, he has participated in 7 (seven) projects in this country and abroad.

Theory and Methodology of Sports Training

PhD. **Robert Hristovski**, Full-time Professor

Born on 30.11.1963 in Krusevo. Graduated at the Faculty of Physical Education in Skopje. He obtained his Master's degree at the same Faculty in 1994, with a Master's thesis: "Some Relations Between the Variables Which Define the Latent Time of Simple Optional and Cross Visually – Motoric Reaction and Their Stochastic Parameters". In 1997, he obtained his PhD degree, with a PhD thesis: "Some Structural and Dynamical Aspects of Visually – Motoric Reaction of the Above Average Sports – Motoric Active Subjects."

In 2001, he had a scientific stay at the Institute for Non - linear Science in San Diego – USA. Besides publishing many professional and scientific works in this country and abroad, he is a visiting professor at the National Institute for Physical Education in Catalonia, at the University of Barcelona, and at the Faculty of Psychology in Malaga. He has been invited many times to be a lecturer in the field of Kinesiology, most important of which are the lectures at the Institute of Physical Education in Madrid, the Faculty of Human Motoric in Lisbon, the Institute of Biomechanics in Valencia, the Leibniz Institute of Computer Science in Dagstuhl – Schloss – Germany. He is especially interested in the problem of unification of a scientific language based on general dynamical principles. Regarding this issue, he has been invited to be a lecturer at the University of Medicine and the Faculty of Fundamental Sciences and Applied Mathematics in Kaunas, and also at the Faculty of Linguistics in Barcelona. He has been a reviewer in famous international scientific papers. In the scientific fields in which he works, so far he has been cited in more than 600 times, on average in 80 citations annually. It is interesting that the results of his studies are also cited in professional publications of famous professionals in sports, among which are the experts from FC Barcelona and the Australian Sport Institute. As one of the pioneers in the field of applied complex dynamical systems in sports, he is an

author and editor of the first international monograph in the field of complex sport systems. In more recent past, the experimental results of his studies in the field of metastability in the perceptive – motoric behavior became part of the empirical and interpretative frame in the field of science and philosophy of the basic embodied cognition and embodied neuroscience. He is one of the creators of the theoretical approach known as "Ecological Dynamics in Sports", especially in the field of motoric creativity. His work in the field of decision making and selection of actions is cited as an international encyclopedic reference.

Theory and Methodology of the Sport Recreation

PhD. **Goran Nikovski**, Full-time Professor

Born on 19.08.1969 in Skopje. Graduated at the Faculty of Physical Education in Skopje. He obtained his Master's degree at the same Faculty in 1999, with a Master's thesis: "Influence of the Programed Recreational Sport Activities on the Physical Characteristics and Abilities of First and Second Grade Students". In 2003, he obtained his PhD degree, with a PhD thesis: "Influence of the Programed Recreational Sport Activities on the Development of the Morphological Characteristics and Motoric Abilities of Third and Fourth Grade Students". He has published more than 30 professional and scientific works in the field of sport recreation and other.

As a contributor, he participated in the project: "Hedonistic Approach in the Physical Education as a Factor for Improving the Quality of Living and Studying", MON (2004 – 2006). He is a coauthor of the schoolbook: "Basics of Sport Recreation" (2004).

In 2003, he was chosen to be a member of the International Sport Commission which is part of the Macedonian Association of School Sport. He is actively involved in the civilian forms of sport activities through various associations.

He is part of the International Olympic Academy and the International Sport and Culture Association (ISCA). He has also been named President of the Expert Commission which is part of the federation Sport for All in Macedonia.

Kinesiological Anthropology.

PhD. **Mitricka Dzambazova Stardelova**, Full-time Professor

Born on 17.12.1976 in Winterthur, Zurich – Switzerland. Graduated at the Medical Faculty and Faculty of Physical Education in Skopje. She obtained her Master's degree at the same Faculty in 2004, with a Master's thesis: "Analysis of the Morphological and Functional Abilities of Primary and Secondary Education Students." In 2006, she obtained her PhD degree, with a PhD thesis: "Ontogenetic Development of Both Male and Female Students in the Primary and Secondary Education as a Prediction for Selection in Sports."

She has published many professional and scientific works. She is also a coauthor of two study guides and one schoolbook. During her specialization, she has expressed her determination to analyze the anthropometrical motoric field, especially regarding physiotherapy and kinesiotherapy.

Lately, as a coauthor and author, she has published books in Sofia, Belgrade, Skopje, Aleksinac and Veliko Tarnovo. Internationally, she has presented herself with studies in the fields of kinesiological medicine, physiotherapy, terminologically – philosophical problems of physical education, pedagogically – sociological problems in kinesiology, skills of young athletes, sociological indicators in relation

to morphological and situational – motoric statuses, sport management.

She has expressed her affinity towards sports in various tournaments. She was part of the well-established handball club “Gjorce Petrov”.

DEPARTMENT OF SOCIAL SCIENCES

Psychology in the Physical and Health Education and Sports

PhD. Lence Aleksovska Velickovska, Full-time Professor

Born on 10.06.1971 in Skopje. Graduated at the Faculty of Physical Education in Skopje in 1993. She also graduated at the Faculty of Philosophy – Psychology Institute in Skopje in 1997. She obtained her Master's degree in 2000, with a Master's thesis: “Differences in the Level of Some Psychological Features of Different Athletes (in different sport categories) and Non-athletes in Republic of Macedonia.” In 2002, she obtained her PhD degree, with a PhD thesis: “Establishment of and Differences in the Psychological Structure of Athletes in Different Sport Disciplines and Non-athletes in Republic of Macedonia”.

She has published more than 80 professional and scientific books. She is also author of one schoolbook and one psychology practicum in the physical education and sport (2004), and coauthor of two schoolbooks. She is coauthor of the swimming schoolbooks for psychological preparation for water polo and swimming (2006 and 2007), and author of one schoolbook of mountaineering and programing the training in the psychological preparation of people who do karate (2009).

She was a researcher, main researcher and coordinator in a couple research projects, both international and domestic: “Analysis and Comparison of some

Anthropometric, Motoric and Psychological Variables of Young People from Republic of Slovenia and Republic of Macedonia" (2007 – 2009); "Status and Comparative Analysis of Anthropometric and Motor Latent Dimensions of Young People from Slovenia and Macedonia" (2013 – 2014). She was also a coordinator of the seminar: "Woman and Sport, Conditions and Perspectives", part of MOK (2009); of the project "Self – valuation and Rating the Physical and Health Education Curriculum in the High Schools in Skopje", (2012) and also the project "Continued Improvement or Permanent Education of Physical Education Professors in Republic of Macedonia" (2012 – 2014).

She has been a reviewer of many schoolbooks and books related to sport psychology. Moreover, she was an editor of the international scientific magazine "Research in physical, education, sport and health, R. Macedonia" and member of more scientific papers. Since 2012, she is a project coordinator of the "Erasmus" project at the Faculty of Physical Education, Sport and Health, which is part of the University "Ss. Cyril and Methodius". She was a mentor of many graduate students, and also students who obtained their Master's and PhD degrees. From 2011 – 2015, she was Vice Dean of science and international cooperation.

She actively works in the Macedonian Olympic Committee. Also, she is President of the commission "Women and Sport" and member of the Board, with which she realized a couple of projects and attended international seminars for promotion of women in sports.

Lence has a rich basketball career. As a great female basketball player, she was successful in the national cadet team of Yugoslavia. After the Macedonian independence, she was a captain of "KK Student", with which she won the championships and cups of Macedonia in 1994, 1995, 1996 and 1997.

At the "All Star" matches in Macedonia, she was named best female basketball player in Macedonia in 1994 and 1995. She has participated in the Europa Champions League and was a standard member of the Macedonian senior basketball team.

After finishing her playing career, she continued working in sports, but now as a sport psychologist.

Since 1997, she is one of the pillars and lecturers of sport psychology in many famous teams, the Olympic Committee, national teams and basketball, handball, football, karate, ski, tennis and swimming federations. At the same time, she works individually with many top athletes, regarding their psychological preparations, with which she has achieved great results.

She has been working successfully for 17 years, and today she is famous in this profession in Republic of Macedonia and abroad. She has won the award "8th of September", which is given by the country and with which she was acknowledged for promoting Republic of Macedonia and for her successful sport results in the international sport as a top sport psychologist.

She is one of the pillars of the development of the studies and application of

the results in the field of sport psychology, in order to achieve top sport results with athletes, teams and national teams from Macedonia and abroad in many sports. With these athletes, teams and national teams she has achieved great results.

History of the Physical Culture

PhD. **Dusko Ivanov**, Full-time Professor

Born on 12. 08. 1957 in Skopje. Graduated at the Faculty of Physical Education in Skopje. He obtained his Master's degree at the same Faculty in Skopje in 1995, with a Master's thesis: "Emergence and Development of the Modern Olympic Movement in Macedonia." In 1997, he obtained his PhD degree, with a PhD thesis: "Athletes from Republic of Macedonia in Top International Competitions in the Period 1944 – 1991."

He has published more than 40 professional and scientific works. Also, he has actively participated in the foundation of the Education Center which is part of the Macedonian Football Federation. He has lectured students of postgraduate studies at the Faculty of Physical Education in Izmir, Turkey and students of postgraduate studies at the Faculty of Physical Education in Sarajevo, Bosnia and Herzegovina. He is also a member of the international associations for studying the history of physical culture IHPES, BAH PES and an active researcher in the field of modern Olympic movement.

He is an author of many schoolbooks and practicums regarding the physical culture. Also, he has published the books: "Basic Methodology of the Studies of Physical Culture History" 2000, and "Everything You Want to Know About Olympism", Macedonian Olympic Committee (2001). Moreover, he has been a mentor of many graduates writing their graduate thesis, and of several student writing their Master's and PhD thesis. He is an author of the two monographs for the 35th and 40th anniversaries of the Faculty of Physical Education, Sport and Health in Skopje.

He was very active and had a great career in judo, archery and sport fishing (participated in world championships as a competitor or coach of the Macedonian national team at the world championship in Belgrade – 2008, South Africa – 2009, France – 2010, England – 2011 and Hungary – 2017).

Sociology in the Physical and Health Education and Sport

PhD. **Ivan Atanasovski**, Full-time Professor

Born on 09.11.1973 in Kumanovo. Graduated at the Faculty of Physical Education in Skopje. He obtained his Master's degree at the same Faculty in 1999, with a Master's thesis "Establishing an Optimal Model for Training Sixth Grade Students Some Basketball Elements". In 1998, he obtained his PhD degree, with a PhD thesis: "Establishing an Optimal Model for Teaching Basketball, Football, Handball and Volleyball Elements, Covered in the Primary School Curriculum". He also obtained a PhD degree at the Institute of Sociological – Political Studies in Skopje in 2010, with a PhD thesis: "Sociological Aspects of Violent or Aggressive Behavior at the Sport Events in Republic of Macedonia."

He has published many professional and scientific works and is an author of 10 books in the field of sports.

He is a visiting – professor at the College of Sport and Health in Belgrade and also a member of the National Social Sport Committee of Republic of Macedonia. He has also participated in more than 20 scientific and expert debates abroad, at famous universities, among which is the University of London. From 2002 to 2008, he was elected to be a member of the parliament of Republic of Macedonia, where from 2006 – 2007 he was Vice President of the Assembly of Republic of Macedonia. As a well-known social worker, he is often present in the social events and is actively contributing to the development of the physical culture in Macedonia. He has also been chosen to be member of the International Sport Sociology Association (ISSA). In 2013, he was named Head of II cycle sport

management studies. He is Vice Dean of science and international cooperation for the period 2016 – 2020.

Pedagogy

PhD. Lena Damovska, Full-time Professor

Born on 18.06.1967. She obtained her PhD in the field of pedagogical sciences. In 1998, she obtained her Bachelor's degree, and her Master's degree in 1994 at the Pedagogy Institute which is part of the Faculty of Philosophy at the University "Ss. Cyril and Methodius" in Skopje. In 2000, she successfully defended her PhD thesis at the same Faculty.

She has published more than 60 works and writings in domestic and foreign periodicals. In the period from 2006 to 2009, she was a state coordinator of creating standards for early learning and development in Republic of Macedonia. She is a member of many international pedagogical associations and research networks: BASOPED – Balkan Association of Education and Pedagogy, International Research Network for Early Development of Children, ENIRDELM – European Network of Research Development in the Field of Educational Management. She has also been a visiting professor at the Aristotle University of Thessaloniki. From 2008 until 2010, with a status of UNICEF's international expert of early children development, she worked in the International UNICEF Project – Going Global, for development, implementation and monitoring of the standards for early learning and development in Macedonia (2006- 2010), Serbia (2008), Bulgaria (2008) and Kosovo (2008 – 2010).

She has participated in many international and domestic projects as a manager and member of a team of experts: University of Gothenburg-School of Global Studies, Impact of Peace Education on Relationship Building and Societal Conflict – member of a team of experts (2014 -2016); UNESCO Project - Enhancing Dialog and Collaboration Through Intercultural Education – project manager (2011-2012); Interdisciplinary Studies of International Relations in Republic of

Macedonia (Study Program for the 2nd and 3rd Cycle of Interdisciplinary Studies for International Relations in R. Macedonia) –TEMPUS – (2010-2013); Strengthening the System for Training Professors in a Multiethnic Society, OSCE and Faculty of Philosophy – (2010 – 2014); Project: Early Children Development UNICEF, project coordinator: Standards of Early Learning and Development of Children, 0 – 6 years old, in Republic of Macedonia (2006 – 2010); Creating Standards of Early Learning and Development of Children, 0 – 6 years old (MTSP and UNICEF) – manager of the national expert team (2007 – 2010).

She has been a mentor of more than 20 students in postgraduate studies, including 5 PhD students writing their PhD thesis. Also, she had participated in many domestic and international congresses and conferences.

Methodology with Statistics

PhD. Georgi Georgiev, Full-time Professor

Born on 01.09.1963 in Sofia, Republic of Bulgaria. Graduated at the Faculty of Physical Education in Skopje. He obtained his Master's degree at the same Faculty in 1997, with a Master's thesis: "Defining the Level of Factor Validity, Reliability and Other Measurable Characteristics in the Biomotor Field, Regarding 11 Years Old Students of Both Sexes". In 2006, he obtained his PhD degree, with a PhD thesis: "Development of some Dimensions of Anthropological Status of Primary School Students, Defined with Different Methodological – Statistical Actions".

He has published 163 expert and scientific works in prestigious international scientific papers. He has participated in 106 international scientific – expert meetings in: Italy, Spain, Slovenia, Croatia, Bosnia and Herzegovina, Serbia, Montenegro, Bulgaria, Poland and Macedonia. He was a (part – time) professor at the Faculty of Physical Education at the State University of Tetovo – DUT (2007 – 2009). Also, he has been invited six times to be a lecturer of second cycle studies at other universities, at the State University of Tetovo and the University of Montenegro in Niksic. Moreover, he has been chosen by the Ministry of Sport and Science of Montenegro to be an expert of curriculum accreditation in

the higher education. He is a member of reviewer boards of many magazines. Furthermore, he was named one of the ten best scientists at the University "Ss. Cyril and Methodius" in Skopje for 2012. He is a coauthor of the books: "Measurable Characteristics of Some Test for Estimating the Biomotor Latent Dimensions of Athletes from Macedonia and Bulgaria" (2004) and "Reliability and Validity of Some Tests Regarding Interviewees with Above Average Motor Abilities" (2005). He was a contributor in 5 projects: 1) "Establishing the Singularity and Variability of Some Morphological and Motoric Dimensions of Students from Republic of Macedonia" (1993 – 1995); 2) "Measurable Characteristics of Some Tests for Estimating the Biomotor Latent Dimensions of Athletes from Macedonia and Bulgaria" (1995 – 1997); 3) "Reliability and Validity of Some Tests Regarding Interviewees with Above Average Motoric Abilities" (1997 – 1999); 4) "Development of Anthropometrical and Motoric Manifested and Latent Dimensions of Both Young Boys and Girls in Republic of Macedonia" (2003 – 2004) 5) "Analyzing and Comparing Some Anthropometrical and Motoric Dimensions of Young People from Slovenia and Macedonia, aged 11 to 15" (2004 – 2006).

He has been a mentor of 5 students writing their graduation thesis, 1 student writing his Master's thesis, and also a member in many committees for graduation, Master's and PhD thesis at the Faculty of Physical Education, Sport and Health.

DEPARTMENT FOR BIOLOGICAL-MEDICAL SCIENCES

Kinesitherapy

PhD **Vujica Zivkovic**, full-time professor

He is born on 7.9.1963 in Gostivar, R. Macedonia. He finished elementary and high school in Skopje. He graduated from the Faculty of Physical Education in Skopje in the academic year 1989/90, and since 1990 he has been employed as a junior assistant in the field of kinesitherapy at the Faculty of Physical Education in Skopje.

On December 26, in 1995, at the Faculty of Physical Education in Skopje, he

defended his master's thesis titled "Implications of flat feet on the anthropometric and biomotoric space among the students from the fifth grades", thus gaining an academic degree in the field of physical culture.

On December 29, 1999, at the Faculty of Physical Education in Skopje, he defended his PhD dissertation under the title "Developmental tendencies of the foot and its implications on the anthropometric and biomotoric space among pupils in the primary schools", thus obtaining the academic degree of Doctor of Philosophy in the field of physical culture.

During his work at the Faculty, as major activities of a wider social interest that he performed and still performs are as follows: Secretary of postgraduate studies at the Faculty, Vice-Dean for Teaching and Science at the Faculty of Physical Culture in Skopje, Senator at the University "Ss. Cyril and Methodius" University in Skopje, Vice President of the Coaching Organization of the Football Federation of Macedonia, a long-time member of the expert commission at the FFM and UEFA Education Center for implementation of the UEFA-JIR project on mutual recognition of coaching qualifications, Member of the Board of Directors of the Macedonian Olympic Committee, Dean of the Faculty of Physical Education in Skopje (from September 15, 2011 to September 15, 2016). Pro-rector for teaching at UKIM 2016-2020.

From his employment at the Faculty to date, as a result of his interest in scientific-research work, he has been actively participating in many congresses, symposia and seminars, both in the country and abroad, and has been a lecturer in many domestic and foreign institutions. As author or coauthor, so far, he has contributed with over 100 professional and scientific papers and several educational workbooks in the field of kinesitherapy and kinesiology. He is a participant in a number of national and international scientific research projects.

Biomechanics

PhD **Aleksandar Tufekcievski**, full-time professor

He is born on 3.2.1954 in Stip. He graduated from the Faculty of Physical Education in Belgrade. He received his M.A. at the same Faculty in 1981 on the topic: "Impact of Isometric, Repetitive and Ballistic Muscular Strain on the Specific Muscular Potential and Some Biomechanical Parameters in Karate". He received his PhD in 1988 on the subject: „Biomechanical Structure of Dynamic Stereotypes in Physical Culture“.

He has published more than 100 professional and scientific papers. He is internationally recognized as an expert in biomechanics and is a consultant on many studies with this subject. He is author of several textbooks and practicums on biomechanics.

He is one of the heads of the projects: "School sports camps", MES, AMS, FUSM, and "Fun school sport", FUSM. Together with his colleague, he is an author of many textbooks, teaching aids and practicums. Most recent are the textbooks: "Biomechanics" (second extended edition with annex), FFK, Skopje (2009) and "Visual Dictionary of Biomechanics", FFK, Skopje (2011).

He is a mentor on more than 60 graduate theses, 7 master's theses and 4 doctoral dissertations. He has made an extensive sports and social contribution in sports federations and unions.

He is a longtime president of the Union of School Sports of Macedonia and an active member in the organs of the Macedonian Olympic Committee.

PhD **Aleksandar Aceski**, assistant professor

He is born on 10.9.1977 in Skopje. He graduated from the Faculty of Physical Education in Skopje. He got his M.A. at the same Faculty in 2009 on the topic: "Biomechanical status of the basic motor manifestations represented in the curricula for physical and health education for children from three to ten years".

He received his PhD in 2013 on the topic: „Biomechanical status and level of development of basic motor skills among children aged seven to ten years“.

He has published more than 50 professional and scientific papers. He is actively involved in the editorial board of the collection of papers from the scientific and scientific gatherings organized by the Federation of School Sports of Macedonia and he has participated in the realization of several projects related to school sport.

He was the head of the school sports camp „Krusevo 2011“. He also worked as a coach of juniors in basketball and volleyball, and was also a participant in the marathon race Tetovo-Skopje. He has participated in bodybuilding, swimming and mountaineering on various grounds. He has advanced knowledge of computer work and shows a special interest in scientific research.

Sports medicine

PhD **Vanco Pop - Petrovski**, full-time professor

Born on October 13, 1955 in Skopje. He graduated at the Medical Faculty and the Faculty of Physical Education in Skopje.

The most important postgraduate educations:

Three-year specialty in sports medicine, Medical faculty, Skopje. Two-year Master's Degree, Faculty of Physical Education, Belgrade. Two-semester specialty in sports gymnastics, National Sports Academy, Sofia. Ph.D., Faculty of Physical Education, Skopje. Two-year specialty in sports nutrition and supplements, Belgrade. Three-semester postgraduate qualification for yoga trainer, National Sports Academy, Sofia. One-year training in acupuncture, National Sports Academy, Sofia. Acupuncture Course, Serbian Medical Association, Belgrade. Course on electropuncture diagnostics and therapy according to Fol, Serbian Medical Society and Research Center „Peresvet“, Moscow. Microwave resonance therapy, Serbian Medical Society and Scientific Research Center „Vidnuk“, Kiev. He has visited several seminars for various yoga techniques (Belgrade, Budapest, Bulgaria, Netherlands, India). He has collaborated in the

following research projects:

Criteria for selection and orientation of young athletes in SR Macedonia, FFK, Skopje; Valorization of sports activities in the Republic of Macedonia, FFK, Skopje; Valorization of sports activities in Skopje „, FFK, Skopje; Analysis and comparison of some anthropometric and motor dimensions among young people from Slovenia and Macedonia aged 15 to 18, MES, FFK - Skopje, Faculty of Sport – Ljubljana.

Structure and development of the anthropometric, motor, functional dimensions and condition of postural status among students of both sexes aged 6 to 14 years from the primary schools in the municipality of Kisela Voda; Structure and development of anthropometric, motor, functional dimensions and the condition of postural status among students of both sexes aged 6 to 14 years of the primary schools in the municipality of Strumica.

He has 22 years of experience in assessing the nutritional status, in nutrition advice and nutritional supplements and 6 years of working experience with football players (UEFA and FFM Academies and Selections, U14,15,17,19,21, A). He is a lecturer of Continuous Medical Education as part of The Macedonian Medical Association. He participated in more than 60 television programs on healthy nutrition and nutritional supplements. He has published over 130 popular, professional, scientific papers and several textbooks in the fields of: anthropometry, motor skills, functional testing, sports nutrition and nutritional supplements, bioresonant assessment and support, yoga.

He has worked as a gymnastics assistant at the FFOSZ in the period from 1984 to 1997, and since 1997 he teaches the courses: medicine of sport, nutrition protocols, yoga. Today he is a full-time professor and, according to him, health is a process of creating an independent and mature individual who knows what he wants and how much he can achieve, for the good of himself, the community, and the nature.

Hygiene in physical and health education and sports

Phd **Daniela Sukova Stojmanovska**, Full-time professor

Born on 29.3.1963 in Skopje. She graduated at the Medical Faculty in Skopje Graduated. She defended her master's thesis at the Faculty of Physical Education in Skopje on the topic: „The influence of excess weight on the anthropometric, biomotoric and functional space among the female pupils in fifth grades in Skopje“. She defended her doctoral dissertation at the Faculty of Physical Education in Skopje in 1999 on the topic: „Different status of body mass and its implications on the anthropometric, biomotoric and functional space among the female students from the higher grades in the primary schools in Skopje“. She appears as author of the book „Research in the Hygiene of Physical Exercise“ (Authorized lectures), FPC, Skopje (2009); as co-author of the book „Research in the field of kinesitherapy“, FPC, Skopje (2000), as co-author of a textbook on kinesitherapy: „Fundamentals of kinesitherapy“ - newly supplemented and expanded edition (participates in the eighth chapter), FPC, Skopje,); „Fundamentals of Kinesitherapy“ - third supplemented and expanded edition (participated in the ninth chapter), FPC, Skopje, (2011). She has been in an actively collaboration with J. Shukov and V. Zivkovic in the project: „The Different Value of Weight and its Impact on Anthropometric, Biomotoric and Functional Characteristics and its Connection to Foot Deformities among Students of Both Sexes“. She has published a number of papers, and among other things she appears as an author in: The European Journal of Obesity, Sport and Science; Exercise and quality of life; ECO. Kinesiology; Sport and health; Recreational Sports in the function of health promotion. More recently, prof. PhD Shukova Stojmanovska has published papers in Youth sport; in Research of physical education, sport and health. She has worked as a nutrition advisor for representatives of various sports, at the Food Counseling Center at the Faculty of Physical Education, Sport and Health. Since October 2012 she is the Head of Doctoral Studies in Kinesiology.

Functional anatomy

PhD Julijana Zivadinovic, associate professor

Date of birth May 12, 1969

She has acquired education as a Doctor of Medicine (MD) (26/09/1993) at the Medical faculty, UKIM, Skopje. She acquires a Master degree (M sci) on 27.10.2000, and becomes a specialist in pathology on 21/05/2003, at the Medical Faculty, UKIM, Skopje. She finishes her doctorate on 01/02/2008 at the same faculty. In 2009, she has been elected as an Assistant of the Institute of Anatomy - Medical Faculty, and as an Assistant professor in 2013. She is elected Associate Professor in 2013 at the same Institute. Her significant published works as an author and co-author are: Peripheral nervous system-clinical anatomy. Skopje: MARIV-S; Vascularization of the brain; Anatomy of man-first part. Skopje: MARIV-S; 2011; Clinical anatomy of the organ for hearing and balance. Skopje: UKIM, Faculty of Medicine; 2014; Clinical anatomy of the nose. Skopje: UKIM, Faculty of Medicine; 2016; Systematic and topographic anatomy of man-part one. Skopje: UKIM, Faculty of Medicine; 2015; Systematic and topographic anatomy of man-part three. Skopje: UKIM, Faculty of Medicine; 2015; Characteristics of sacra associated with assimilation of the last lumbar vertebra. Folia Morphol ; Adrenocortical carcinoma with concomitant myelolipoma: a case report. Jokull 2016.; Superficial leiomyomas of the gastrointestinal tract with interstitial cells of Cajal. Int J Clin Exp Pathol 2015.; Tumor Cystic Lesions of the Adrenal Gland. At (MASA-Medical sciences department).; Aneurysmal bone cyst to telangiectatic osteosarcoma with metastasis in inguinal lymph nodes – case, report. Med Pregl. 2015.; Synchronous occurrence of ileal stromal tumor (GIST) and colonic adenocarcinoma: a case report. At (MASA-Medical sciences department). 2015.; Morphological characteristics of the superior cerebellar artery. At (MASA-Medical sciences department). 2015.; Vsother body regions. At (MASA-Medical sciences department). 2014.; Cocaine cardiomyopathy – a case report. Sanamed 2104; Dermatoglyphics in schizophrenia- findings in the macedonian population. Contributions 2013.; Cervical Spinal Canal on MRI. Contributions. 2013.; The anatomy of teaching anatomy. Acta morphol. 2013; 10.; lumbar disc herniations related to the type of herniation and to the age. Bratisl Lek Listy 2012; Node status and onset of regional lymph nodes metastases in melanoma. Contributions 2012; And clinical importance of triangle of Koch. Acta morphol. 2012; Right atrium. Acta morphol. 2012; Characteristics of circulus arteriosus cerebri - circle of Willis. PhD **Icko Gorgoski** – Full-time Profesor

Born on October 23, 1960 in the village of Krusheani, Prilep. He finished elementary education in his birth place, however he finished secondary medical school, at the medical laboratory and sanitary technicians department, in Skopje in 1979 with flying colors. Then he enrolled at the Biological Faculty in Skopje, where he graduated in 1983. In 1985, He enrolled in postgraduate studies in the natural sciences in the field of biology (group of molecular biology and cell biology), Faculty of Natural Sciences and Mathematics in Zagreb. The master thesis titled "Haplotypes of human beta-globin gene" was developed by the National Reference Laboratory for Hemoglobinopathy and at the Research Center for New Technologies at MANU under the mentoring of acad. Gorgi Efremov, which he successfully defended in 1990. The doctoral dissertation titled „The influence of the restrictive diet and high external temperature on the immune system during the intrauterine and early postnatal period in white laboratory rat" was successfully defended in 1995. PhD Gjorgoski, in 1984 was admitted to the Biological Faculty in Skopje, and in 1986 was elected as a junior assistant. After his doctorate, he was elected Assistant professor in 1995, in 2000 associate professor, and in 2005 full-time professor.

Over the last five years he has been a mentor of three Masters and one Specialist work, as well as of about 30 graduate thesis. PhD Gjorgoski has participated in the realization of 15 scientific-research projects, of which in 4 he has been the Head of, and he has published more than 50 scientific papers in domestic and foreign scientific journals. He is co-author of: Biology for 7th grade (2002); Biology Workbook for 7th grade (2002); Biology for 8th grade (2003); Biology Workbook for 8th grade (2003) and Biology for third year at the reformed high school education (2003). In 2004, PhD Gjorgoski was a co-author of the university textbook Physical Anthropology, and in 2005 the University textbook Fundamentals of physiology of the neuroendocrine system. He is elected for the second as Dean of the Faculty of Natural Sciences and Mathematics in Skopje.

ADMINISTRATIVE STAFF OF FPESH

The overall development of the Faculty of Physical Education, Sport and Health could not be objectively perceived if the professional-administrative service of the Faculty is not seen as part of the integrated professional and administrative service at the University „St. Cyril and Methodius“ from Skopje.

The secretary of the faculty, Elena Daskalovska, a graduated lawyer, is the head of the service.

The professional and administrative service is organized in two departments

1. Department for Student Affairs and Library Work
 - Student Affairs Office– Mimir Stanimirovic - Head
 - Library – Emilija Savoska
2. Department for financial, accounting and material affairs and general affairs
 - Office for Material and Financial Operations – Marija Naumovska, Head, Marija Angeleska – treasurer
 - Archive – technical secretary – Elizabeta Markovska
 - Administrative and technical office - Lence MACKinovska, Snezana Miseva и Verica Dimovska, Milevka Serafiloska

TEACHERS AND ASSOCIATES WHO HAVE WORKED AT THE FACULTY

PhD Slavko Matovski, a professor of the subject handball

Born on 17.9.1927 in Skopje. He has worked at the Faculty since its founding (1.5.1978), until retirement (30.9.1987). He graduated from the State Institute of Physical Education in Belgrade in 1960. Got his M.A. at the Medical Faculty in Skopje, in 1977, on the topic: "The place of the Sporting club 'Rabotnicki' from Skopje in our advanced working sports movement and its role in the development of sports life in FR Macedonia." He received his PhD on the subject: "Advanced Working' Sports Movement in Vardar's Macedonia from its appearance until 1944, with reference to the union sports movement in the People's Republic of Macedonia (1944-1947) - (1982)".

M.A. Andon Simovski, full-time professor of the subject method of physical education

Born on June 8, 1926, in Krushevo. He was employed at the Faculty from 1.5.1978 to 30.9.1987. He graduated from the State Institute of Physical Education in Belgrade in 1954. Got his M.A. at the Medical Faculty in Skopje, on the topic: "Physical education in secondary schools in Vardar's Macedonia between the two world wars (1918-1941)". Habilitated at the Faculty of Physical Education in Skopje, in 1980, on the topic: "Technique and biomechanical analysis of the technique of Alpine skiing".

PhD. Stojan Trninic, a full-time professor of physical education theory

Born on 7.9.1928 in Shtip. He has worked at the Faculty since 1.5.1978. He graduated from the State Institute of Physical Education in Belgrade in 1959. He got his M.A. at the Medical Faculty in Skopje on the topic: "Some anthropometric and motor characteristics of students from the Higher School of Physical Education in Skopje". Habilitated in 1980, at the Faculty of Physical Education in Skopje, on the topic: "Attitudes and interests for the sports and recreational activities of employed women from some organizations of associated labor in FR Macedonia". He received his PhD at the Faculty of Physical Education in Skopje on the topic: "Structure and interrelation of some anthropometric and

motor variables of the students from the higher grades in the primary schools in FR Macedonia in 1985."

PhD **Katica Dimova**, associate professor of dancing and rhythmic and sports gymnastics

Born on June 19, 1938 in Bačko Gradiste, Vojvodina. She worked at the Faculty since 1.5.1978. She graduated from the Higher School of Physical Education in Belgrade in 1962. She got her M.A. at the Medical Faculty in Skopje, on the topic: „Comparison of objective factors determined by biomechanical analysis in wavy movements in rhythmic and sports gymnastics and arbitrary assessments“. She completed her PhD at the Faculty of Physical Education in Belgrade, in 1983, on the topic: "The impact of a one-year experimental program of rhythmic-sport gymnastics on the morphological-notorious and aesthetic qualities of primary school students from 7 to 8 years".

PhD **Atanas Kajcevski**, a full-time professor of the subject martial arts

Born on February 15, 1943 in the village. St. German, Aegean Macedonia. He has worked at the Faculty since 1.5.1978. He graduated from the Higher School of Physical Education in Belgrade in 1966. He got his M.A. at the Medical Faculty in Skopje, 1975, on the topic: „Dependence between the shock impulse in the characteristic karate strokes and the adequate anthropometric and motor variables." He received his PhD at the Faculty of Physical Education, Belgrade, in 1981, on the subject: „ Examination of the dynamic stereotype of the impulse of force produced by segmental cranial part of the body registered with comparative cinematographic, electromyographic and ballistic pendulum method".

PhD **Aleksandar Naumovski**, full-time professor of the subject methodology of statistical research

Born on 5.1.1946 in Bitola. He was employed at the Faculty on October 1, 1979. He graduated from the Higher School of Physical Education in Belgrade in 1969. He got his M.A. at the Faculty of Physical Education in Belgrade, 1975, on the topic: "The influence of the motor skills of secondary school

students in the application of analytical and complex methods in the training of some exercises on the equipment." He received his PhD at the Faculty of Physical Education in Belgrade, in 1981, on the topic: „Rationality of the Application of Different Methods of Studying Sports Elements in Secondary School Students“.

PhD **Dimitrija Popovski**, full-time professor of the subject swimming with water polo

Born on June 16, 1941 in Skopje. He graduated from the High School of Physical Education in Belgrade in 1965. He is employed at the Faculty since 1.5.1978. He graduated from the Higher School of Physical Education in Belgrade in 1966. He got his M.A. at the Medical Faculty in Skopje, 1977, on the topic: „Relation between body development and dynamometer measured muscle power in male high school youth in Skopje“. He received his Ph.D. at the Faculty of Philosophy - Department of Physical Education in Nis, 1980, on the topic: „ „Relation of anthropometric dimensions and isometric muscular potential in pupils aged 11 to 14 years in FR Macedonia“.

PhD **Gorgi Spasov**, full-time professor of the subject basics of psychomotorics

Born on April 25, 1938 in the village Sopot - Titov Veles. He has worked at the Faculty since 1.5.1978. He graduated from the High School of Physical Education in Belgrade in 1964. He got his M.A at the Medical Faculty in Skopje, 1975, on the topic: „Individual variations in students' adaptability when changing the intensity of exercises in the gymnastics class“. He received his Ph.D. at the Faculty of Philosophy - Department of Physical Education in Nis, 1980, on the topic: „Intensification of Teaching in Physical Education by Working with Homogeneous Groups.

PhD **Dusan Stanimirovic**, a full-time professor of the subject history of physical culture

Born on August 27, 1934 in Kumanovo. He works at the Faculty from 1.11. 1984. He graduated from the Faculty of Philosophy in Skopje, in 1962. He got his M.A. at the Faculty of Medicine in Skopje, 1978, on the topic: "The emergence and development of the Falconry in Vardar's Macedonia from 1919 to 1929." He received his PhD at the Faculty of Physical Education in Zagreb, 1986, on the topic: "Falconry in Vardar Macedonia - emergence and development."

M.A. **Cedo Sarevski**, full-time professor in the subject of athletics

Born on July 10, 1933 in the village. Lunovo, Gostivar. He has worked at the Faculty since 1.5.1978. He graduated from the High School of Physical Education in Belgrade in 1959. He got his M.A. at the Medical Faculty in Skopje, in 1977, on the topic: „Development of athletics in FR Macedonia from the early beginnings until 1975“. Habilitated at the Faculty of Physical Education in Skopje, in 1981, on the topic: „The conditions for teaching athletics in primary and targeted education in SR Macedonia and a proposal for measures for its improvement“.

PhD **Jovan Sukov**, a full-time professor of the subject kinesitherapy

Born on March 21st, in the village of Ljumnica, Aegean Macedonia. He worked at the Faculty on 15.5.1981. He graduated from the High School of Physical Education in Belgrade in 1964. He got his M.A. at the Faculty of Medicine in Skopje, 1976, on the topic: „Spinal deformities as a consequence of the effect of inadequate external conditions at the age of 8 to 12 years“. He received his PhD at the Faculty of Physical Education in Skopje on the topic: „Prevention and correction of poor posture and bodily deformities of the spine with the help of adequate complex exercises among primary school students“.

PhD **Simeon Dukovski**, a full-time professor of the subject basketball

Born on June 17, 1939 in Sofia, Bulgaria. He worked at the Faculty from 1.12. 1985. He graduated at the Faculty of Philosophy - Department of Physical Education in Nis, 1975. He got his M.A. at the Medical Faculty in Skopje, 1980, on the topic: „Physical development and physical abilities and their interconnectedness among the students and students from III I grade IV in Skopje“. He received his PhD at the Faculty of Physical Education

in Belgrade, 1985, on the topic: "Structure and development of morphological and biomechanical dimensions of pre-school children in Skopje".

PhD **Aleksandar Anastasovski**, full-time professor of the subject sociology of physical culture

Born on 17.6.1942 in Kumanovo. He has worked at the Faculty since 1.4.1987. He graduated at the Faculty of Philosophy - Department of Physical Education in Nis, in 1975. He got his M.A. at the Medical Faculty in Skopje, 1979, on the topic: "Comparative analysis of the results of antropometric and motor dimensions in students' athletes compared to other primary school students in Kumanovo". He received his PhD at the Faculty of Physical Education in Sarajevo, in 1985, on the topic: "Realization of the morphological and biomotor dimensions of students aged 15, who are part of the teaching activities in the primary schools in FR Macedonia".

PhD **Mircho Savoski**, full-time professor of the subject theory and methodology of sports recreation

Born on 4th of March, 1939 in Tetovo. He has worked at the Faculty form 15.4.1988. He graduated from the Higher School of Physical Education in Belgrade in 1964. He got his M.A. at the Faculty of Medicine in Skopje, 1978, on the topic: "Development of skiing in Macedonia from 1919 to 1957" („Развој на скијањето во Македонија од 1919 до 1957 година"). He received his PhD at the Faculty of Physical Education in Skopje in 1987, on the topic: "Valorization of the natural potentials of the region of Rudok for winter-sports recreational activities".

PhD **Vangel Simev**, full-time professor of the subject of football

Born on 10.11.1944 in the village of Buf, Aegean Macedonia. He works at the Faculty from 1.5. 1978. He graduated from the High School of Physical Education in Belgrade in 1970. He received his Master's Degree from the Medical Faculty in Skopje in 1977 on the topic: "Dependence of the intensity of the impact impulse with foot in the football (upper part of the foot) from adequate anthropometric and motor variables in which the musculature is

treated with ballistic, repetitive and isometric muscular strain". He received his PhD at the Faculty of Physical Education in Skopje in 1987 on the topic: "The influence of technical and tactical actions on the success of the football game among the teams participating in the twelfth world football championship and the teams participating in the first and second federal league of Yugoslavia".

PhD **Dimitar Ciev**, full-time professor of the subject of volleyball

Born on 11.10.1939 in Strumica. He has worked at the Faculty since 1.5.1978. He graduated from the High School of Physical Education in Belgrade in 1960. He received his M.A. at the Medical Faculty in Skopje in 1977 on the topic: "The influence of some exercises on the amplitude and spine in the upper ankle and the relationship between amplitude and accuracy in volleyball players of different age, length and ranking of competition". He received his PhD at the Faculty of Physical Education in Belgrade in 1983 on the topic: "Comparative Analysis of the Innovation and the Standard Method of Training Young Volleyball players".

PhD **Georgi Boev**, full-time professor of the subject of sports gymnastics

Born on June 18, 1935 in Ohrid. He has worked at the Faculty since 1.5.1978. He graduated from the High School of Physical Education in Belgrade in 1961. He received his M.A. at the Faculty of Medicine in Skopje, in 1976, on the topic: "Comparative analysis of some anthropometric and motor dimensions among students aged 16 to 17 who participate and who do not participate in sports gymnastics in Ohrid". He received his PhD at the Faculty of Physical Education, Skopje, in 1990, on the topic: "The influence of various structural programs in sports gymnastics on some variables of anthropological status among students aged 17".

PhD **Milos Vucidolov**, full-time professor of the subject of hygiene

Born on August 30, 1935 in Skopje. He has worked at the Faculty from 1.12.1981. He graduated at the Medical Faculty in Skopje in 1963. He graduated from the Sports Medicine Specialty in 1977. He received his PhD at the Faculty of Physical Education in Skopje in 1992 on the topic: "Monitoring the changes in the physiological biochemical variables of the blood in

the body of athletes' freestyle wrestlers during physical activities for a period of four years".

PhD **Dimitar Keramitciev**, full-time professor of the subject of psychology of sport

Born on 2.8.1936 in the village of Lishishta, Aegean Macedonia. He has worked at the Faculty from 15.5.1981. He graduated from the Faculty of Philosophy in Belgrade in 1975. He got his M.A. at the Faculty of Political Sciences in Belgrade, 1979, on the topic: "The social and economic position of the workers and their motivation for work in the organizations of associated labor in the industry in Skopje". He received his PhD at the Faculty of Physical Education in Belgrade.

PhD **Zivko Grujoski**, associate professor for the subject of swimming with waterpolo

Born on 12.2.1944 in Bitola. He has worked at the Faculty since 1.5.1978. He graduated from the Faculty of Physical Education in Zagreb in 1971. He got his M.A. at the Faculty of Physical Education in Zagreb in 1985, on the topic: "The influence of some morphological measures and the flexibility of the buoyancy, hydrodynamics and speed of the swimming discipline of Front crawl at 25m." He received his PhD at the Faculty of Physical Education in Skopje, 1997, on the topic: "The influence of some

morphological characteristics, motor and functional abilities on the success of the results in swimming and water polo with the FPC students from Skopje".

PhD **Angel Dzambazovski**, a full-time professor of the subject theory of physical culture

Born on 1.1.1948 in the village of Tushin, Aegean Macedonia. He has worked at the Faculty since 1.11.1984. Graduated from the Faculty of Physical Education in Sofia in 1971. He received his M.A. at the Faculty of Physical Education in Zagreb, in 1979, on the topic: "Transfer and Interference During the Learning of New Sports Elements of Basketball and Volleyball among Elementary School Students". He received his PhD at the Faculty of Physical Education in Belgrade.

PhD **Dusan Ristevski**, associate professor for the subject of methodology of physical educationa

Born on June 19, 1948 in Bitola. He has worked at the Faculty since 1.5.1978. He graduated from the Faculty of Physical Education in Belgrade in 1977. He got his master degree at the Faculty of Physical Education in Belgrade, in 1981, on the topic: "Transfer and interference during the learning of new sports elements from basketball and volleyball among primary school students". He received his PhD at the Faculty of Physical Education, Skopje, in 1992, on the topic: "The influence of morphological, motor and sociological characteristics on the success in sports activities and on the success of learning".

PhD **Jovan Jovanovski**, редовен професор

Born on 11.2.1949 in Skopje. He graduated as a first graduate from the Faculty of Physical Education in Skopje. He got his M.A. at the Faculty of Physical Education in Belgrade in 1985, on the topic: "The consistency of isometric muscle potential after four weeks of systematic exercise with appropriate regimen". He defended his doctorate in 1988 on the subject: "Impact of isoteric, pliometric muscle strain and the electrostimulation of the isometric muscle potential of muscle flexors on the elbow joint".

He has published a large number of professional and scientific works, textbooks and technical

books for skiing, psychomotorics and gymnastics. As a consultant and collaborator, he appeared in the TEMPUS CME-03118-97 project on the classification of scientific fields, domains and areas (disciplines) of research (1997). As a contributor he has participated in the projects: "Criteria for selection and orientation of young athletes in FR Macedonia (FPC, Skopje, 1987), as well as in the project: " Analysis and Comparison of Some Anthropometric and Motor Dimensions among the Young in Slovenia and Macedonia aged 15 to 18 years, MES, FPC-Skopje and Faculty of Sport-Ljubljana (2007). He was a successful competitor in sports gymnastics and karate. He is a member of the MOC Assembly, a longtime president of the Subcommittee for Teachers and Trainers of the Ski Federation of Macedonia, as well as the current President of the MAISS. He has been engaged for physical training of players for many years at FC "Vardar", FC "Sileks" and FC "Macedonia".

PhD **Vojop Nastevski**, full-time professor

Born on November 1, 1949 in Skopje. He graduated from the Faculty of Physical Education in Belgrade in 1975. He got his M.A. at the same Faculty in 1982 on the topic: "Impact of short isometric muscular stress with big weights on the development of elementary biomotor dimensions in post-pubertal school age of both sexes". He received his PhD in 1988 on the topic: "Kinematic goniometric and electromyographic characteristics of direct blows in martial arts".

He appears as a co-author with A. Kaichevski and Zh. Kostovski in the books "Boxing" and "Wrestling" (2007). He is part of the successful professional staff within the boxing team of Macedonia. Thanks to his vocational development in the United States, with his participation in the top professional boxing camps, he has been contributing to the development of the boxing sport for a long time as the President of the Boxing Federation of Macedonia.

Prof. PhD **Magdalena Damjanovska**, associate professor in the subject of dancing with RSG

She received her PhD at the Faculty of Physical Education in 2000 on the topic: "Efficiency of a program of rhythmic and sports gymnastics on the transformation of certain morphological characteristics, motor and rhythmic abilities among the students from the 4th grades in the primary schools in Skopje".

M.A. **Tomo Atranosovski**, senior lecturer of the subject of basketball

Born on 9.4.1929 in Bitola. He has worked at the Faculty since 1.5.1987. He graduated at the High School of Physical Education in Belgrade in 1958. He got his M.A. at the Faculty of Medicine in Skopje, 1977, on the topic: "Dependence on the accuracy of age and distance when shooting a ball in a basket with one hand at a head height"

Dimitar Manevski, assistant on the basics of psychomotorics

Born on 24.8.1951 in Lajkovac. He has worked at the Faculty since 1.5.1978. He graduated from the Faculty of Physical Education in Belgrade in 1975.

Trajce Stojanovski, assistant on the subject of Methodology of Physical Education. He was hired at the Faculty in 1990, and he left the Faculty in 1992.

From the very beginnings of the Faculty of Physical Education in Skopje, a large number of visiting teachers and associates have held lectures. Some of them have come from the University "Ss. Cyril and Methodius" in Skopje, and some from other universities and faculties.

At the Faculty of Physical Education in Skopje, from the University "Ss. Cyril and Methodius" lectures were taught by teachers from the Faculty of Medicine and Philosophy, Faculty of Physical Education in Belgrade, Faculty of Philosophy - Department of Physical Education in Nis, Faculty of Physical Education, Zagreb, Faculty of Physical Education, Novi Sad.

Teachers from the Faculty of Physical Education in Skopje have held lectures at other faculties outside Macedonia at the Faculty of Philosophy - Department of Physical Education in Nis, Faculty of Physical Education in Prishtina, Faculty of Physical Education, Novi Sad.

In Memoriam

M.A. Cedo Sarevski

M.A. Andon Simovski

Prof. PhD Slavko Matovski

Prof. PhD Dimitar Ciev

Prof. PhD Atanas Kajcevski

Prof. PhD Mirco Savoski

Prof. PhD Aleksandar Anastavski

Prof. PhD Nikola Hristov

Graduated lawyer Boris Daskalov

Prof. PhD Jovan Sukov

Prof. PhD Dimitrija Popovski - 2017

Prof. PhD Zivko Grujoski - 2017

MASTERS GRADUATES

In terms of research at the level of masters, in the first period, a certain number of staff from the Faculty of Physical Education received a master's degree at the Medical Faculty in Skopje. With the introduction of the postgraduate studies at the Faculty of Physical Education in Skopje, since 1991 a register of graduated students has been formed. The following list is for masters of the Faculty of Physical Education in Skopje, in chronological order.

STUDENTS WHO HAVE FINISHED THEIR MASTERS AT THE FACULTY OF PHYSICAL EDUCATION, SPORT, AND HEALT

No.	NAME AND SURNAME	Date of defense
1	ZORAN RADIC	15.04.1994
2	ROBERT HRISTOVSKI	5.10.1994
3	MILAN NAUMOVSKI	03.02.1995
4	GINO STREZOVSKI	03.02.1995
5	JOSKO MILENKOSKI	28.02.1995
6	NEBOJSA MARKOVSKI	28.02.1995
7	DUSKO IVANOV	07.04.1995
8	VUJICA ZIVKOVIC	26.12.1995
9	DANIELA SUKOVA - STOJMANOVSKA	28.04.1996
10	SERJOZA GONTAREV	31.12.1996
11	GEORGI GEORGIEV	28.02.1997
12	ZARKO KOSTOVSKI	30.06.1997
13	ILIJA KLINCAROV	11.07.1997
14	TOPLICA STOJANOVIC	21.07.1998
15	IVAN ANASTASOVSKI	22.02.1999
16	BESNIK TELAI	19.04.1999
17	GORAN NIKOVSKI	30.04.1999
18	MARJAN MANEV	25.11.1999
19	ROZITA PETKOVIC	29.11.1999
20	STRASO GLIGOROV	29.11.1999
21	LENCE ALEKSOVSKA	06.03.2000
22	TOMISLAV HRISTOV	04.05.2000
23	NATASA MESKOVSKA	14.07.2000
24	ALEKSANDAR POPOVSKI	21.07.2000
25	JADRAN KALKOVSKI	16.05.2001
26	TRAJCE JANKOVSKI	18.06.2001
27	PERO MINOVSKI	28.06.2001
28	SUZANA SIMEVA	27.11.2002
29	VERA SOKOLOVA	26.03.2003
30	ANGEL ANGELOV	12.06.2003
31	BRANKO KRSTEVSKI	10.07.2003
32	PATRIK POPOVSKI	25.09.2003
33	BUJAR SAITI	29.10.2003
34	CEDOMIR SAZDOVSKI	10.03.2004
35	AGAN REDZEPAGIC	28.05.2004
36	SASO POPOVSKI	20.07.2004

No.	NAME AND SURNAME	Date of defense
37	RUZDIJA KALAC	27.09.2004
38	SASO TODOROVSKI	28.09.2004
39	VLADIMIR IVANOVSKI	30.09.2004
40	MITRICKA DZAMBAZOVSKA	21.01.2005
41	SASA DIMITRIEVIC	16.05.2005
42	MARJAN KARPANDZEVSki	23.06.2005
43	BLAGOJCE ANDREEVSKI	24.06.2005
44	JANA KARSAKOVSKA	12.07.2005
45	LIZA CAKARESKA	15.7.2005
46	ALEKSANDAR SIMEONOV	29.12.2005
47	VESNA SIMEVA JOVANOVA	16.02.2006
48	FADILJ MAMUTI	15.09.2006
49	VISAR GANIU	13.04.2007
50	SLOBODAN STOJCEVSKI	20.04.2007
51	VLADIMIR VUKSANOVIC	06.05.2008
52	TOMISLAV ANDONOVSKI	13.05.2008
53	ALEKSANDAR MILOEVIC	14.11.2008
54	KATERINA SPASOVSKA	19.12.2008
55	GORAN RAJCINOSKI	11.02.2009
56	BILJANA POPESKA	27.04.2009
57	JONCE IVANOVSKI	30.06.2009
58	VIKTOR MITREVSKI	04.06.2009
59	AGON SAITI	11.06.2009
60	ALEKSANDAR ACESKI	15.06.2009
61	MIHAJLO SILJANOV	24.06.2009
62	GLIGOR HRISTOV	06.07. 2009
63	MENAN MEMEDI	07.07. 2009
64	LUKA POPOVSKI	30.10.2009
65	ANDRIJANA ZAFIROVSKA	29.01.2010
66	BORCE DASKALOVSKI	04.06.2010
67	LILA PETRUSEVSKA	13.10.2010
68	PANCE PANCEVSKI	03.02.2011
69	VLATKO NEDELKOVSKI	16.03.2011
70	KENAN ASANI	29.11.2011
71	ALJOSA NEDEV	25.05.2011
72	DEJAN NEDEV	22.06.2011
73	DARKO KOCEV	21.05.2012
74	SELIM ALILI	23.05.2012
75	BOSKO ZABORSKI	29.06.2012
76	FESTIN ADEMI	25.04.2013
77	MIRKO JAKIMOVSKI	13.07.2013
78	NASER AJDINI	08.11.2013
79	KAMIL ELMAZI	24.12.2013

DOCTORS OF PHILOSOPHY

DOCTORS OF PHILOSOPHY AT THE FACULTY OF PHYSICAL EDUCATION, SPORT AND HEALT

	NAME AND SURNAME	TOPIC AND DATE OF DEFENSE
1.	Slavko Matovski	The Advanced Workers' Sports Movement in Vardar's Macedonia from its appearance until 1944, with reference to the trade union movement in the People's Republic of Macedonia (1944-1947), (1982).
2.	Stojan Trninic	Structure and interrelation of some anthropometric and motor variables of students from the higher grades in the primary schools in FR Macedonia (1985)
3.	Jovan Sukov	Prevention and correction of poor posture and body spinal deformities by means of adequate complex exercises among primary school students (1986)
4.	Mirco Savoski	Valorization of the natural potentials of the Rudotka region for winter-sports recreational activities (1987)
5.	Vangel Simev	The influence of technical-tactical actions on the success of the football game among the teams participating in the Twelfth World Football Championship and the teams participating in the first and second federal league of Yugoslavia - (1987)
6.	Jovan Jovanovski	Impact of isometric, pliometric muscle strain and the stimulation of the isometric muscle potential of the muscles flexors on the elbow joint (1988)
7.	Aleksandar Tufekcievski	Biomechanical structure of dynamic streets in physical culture (1988)

	NAME AND SURNAME	TOPIC AND DATE OF DEFENSE
8.	Vojo Nastevski Туфекчиевски	Kinematic goniometric and physiognomic characteristics of direct impacts in martial arts (1989)
9.	Boev Gorgi	The influence of various structural programs in sports gymnastics on some variables of anthropological status among students of age 17 (1990)
10.	Milos Vucidolov	Monitoring the changes in the physiological biochemical variables of the blood in the body of athletes' freestyle wrestlers during physical activities for a period of four years (1992)
11.	Zoran Radic	The influence of the elements of the programmed training and the biomechanical structure of the technical performance on the results of javelin throw - 1996
12.	Vanco Pop - Petrovski	Relations between anthropometric characteristics and motor skills power and strength and success in gymnastics - (1997)
13.	Dusko Ivanov	Athletes from the Republic of Macedonia at the top international competitions in the period 1944-1991 (1997)
14.	Robert Hristovski	Some structural and dynamic aspects of the visual-motor response in sports-motorized and above-average active subjects - (1997)
15.	Milan Naumovski	Factor analysis of variables that define the structure of the basketball game of NBA teams, European teams and the A1 McPherson League (1997)
16.	Gino Strezovski	Structure of the technical-tactical actions of the attack in the handball game from the national championships of Macedonia and Germany (1998)
17.	Vujica Zivkovic	Developmental tendencies of the foot and its implications for the anthropometric and motor space among elementary school students (1999)
18.	Josko Milekoski	Relations and differences between some cognitive, specific motor skills, conjunctive characteristics and situational motor knowledge in the playoff and regular matches in Macedonia 1997/98 (1999)
19.	Daniela Sukova	The different status of body mass and its implications on the anthropometric, biomotoric and functional space among the students from the higher grades of the primary schools in Skopje (1999)
20.	Nebojsa Markovski	The influence of the anthropometric characteristics, the basic motor skills, the specific motor and cognitive abilities on the success in overcoming the elements of the football game (2000)
21.	Orce Mitevski	Latent association of anthropometric and motor factors with the successful performance of gymnastics in students of 17 years (2000)
22.	Magdalena Damjanovska	Efficiency of a program of rhythmic-sports gymnastics on the transformation of certain morphological characteristics, motor and rhythmic abilities among students from the 4th grades in the primary schools in Skopje (2000)
23.	Ilija Klinarov	Optimal methodology and realization of the teaching in the field of physical and health education in the primary education in the Republic of Macedonia (2001)

	NAME AND SURNAME	TOPIC AND DATE OF DEFENSE
24.	Ivan Anastasovski	Determining optimal models for training elements of basketball, handball, volleyball and football, sports which are within the curriculum of primary schools (2001)
25.	Lence Aleksovska Velickovska	Determination of and differences in the psychological structure of the personality of athletes from different sports disciplines and among non-athletes in the Republic of Macedonia. Macedonia (2002)
26.	Marjan Malcev	Relations of some psychological characteristics, basic motor skills and morphological characteristics of students from the University of Skopje with attitudes towards physical education (2002)
27.	Slavica Novacevska	Relations of some psychological characteristics, basic motor skills and morphological characteristics of students from the Skopje University with attitudes towards physical exercise (2002)
28.	Goran Nikovski	The influence of the programmed sports-recreational activities on the development of the morphological characteristics and motor skills of pupils from third and fourth grade (2003)
29.	Natasa Meskovska	Structure of some relevant biomechanical parameters and relation to success in some swimming disciplines at the 2000 Sydney Olympics (2003)
30.	Pero Minovski	Efficiency of change of specific operators - models of sports and sports activities on the transformation of morphological, motor and functional characteristics of high school students in the Republic of Macedonia (2004)
31.	Telai Besnik	Measurements and criteria for programmed training and selection of talented young athletes (wrestling). (2004)
32.	Zarko Kostovski	Measurement characteristics of some standard and specific motor tests applied in karate athletes of different chronological age (2004)
33.	Cedomir Sazdovski	Determining the structure of the psychosomatic dimensions of young karate athletes of different chronological age (2005)
34.	Aleksandar Popovski	The influence of the latent structure of the morphological characteristics on the biomotor capabilities and some sociological features among student athletes and non-athletes from the first year at the University of "Ss. Cyril and Methodius" in Skopje (2005)
35.	Marko Aleksandrovic	Structure and relations of the anthropological status of water polo players and students at 12 years of age (2005)
36.	Metin Dalip	Monitoring the training process by monitoring the heart rate and blood lactates among professional football players from the first league in the Republic of Macedonia (2006)
37.	Saso Popovski	Sports in the European Union - the basis for the development of sport in the Republic of Macedonia (2006)

	NAME AND SURNAME	TOPIC AND DATE OF DEFENSE
38.	Mitricka Dzambazovska Stardelova	Ontogenetic development among pupils from both sexes in primary and secondary education in Macedonia as a condition for selection in sports (2006)
39.	Georgi Georgiev	The development of some dimensions of anthropological status among pupils from primary schools determined by various statistical-methodological procedures (2006)
40.	Stipe blazevic	Relationships between specific motor skills and morphological characteristics, basic motor skills, cognitive abilities and conative characteristics in top boxers (2006)
41.	Branko Krstevski	Effects of a systematic twelve-week training process for the development of the explosive force of the lower limbs in basketball players aged 17 (2007)
42.	Patrik Popovski	The development and the influence of motor and situational-motor skills on the success of the football game among young players aged 8 to 10 and 15 to 17 (2007)
43.	Jordan Kalkovski	Application of some anthropological characteristics in the selection of candidates for professional soldiers at the Army of the Republic of Macedonia (2007)
44.	Bujar Saiti	Evaluation of the motor skills as a contribution to the general assessment of physical and health education for the students from the first to the fourth grade in the Republic of Macedonia (2007)
45.	Serjoza Gontarev	The influence of the environment and some psychosocial and demographic factors on the physical activity of young people aged 15 to 18 (2008)
46.	Azis Sen	Determination of the conditions for realization of the teaching in the subject of physical and health education in the primary education in the Republic of Macedonia (2008)
47.	Straso Gligorov	Predictive value of some basic motor tests analyzed by different methodological - statistical procedures on the success of situational motor tests in subjects with above average motor abilities (2008)
48.	Adem Preljevic	Structure in anthropometric, biomotoric and specific motor space among young football players with different chronological age from western Serbia (2008)
49.	Ivana Boic	Effects of a specially programmed training process on basic coordination and specific - motor skills in young handball players (2008)
50.	Blagojce Andreevski	Biomechanical structure of the well known karate elements of Shotokan Master Kata and their optimal methodic arrangement (2009)
51.	Mensur Memic	Similarities and differences in morphological characteristics and situational-motor skills among the best-quality handball players and basketball players (2009)
52.	Saso Todorovski	Effects of different training models on specific basketball precision when pitching the ball into a basket after a dribble jump among basketball

	NAME AND SURNAME	TOPIC AND DATE OF DEFENSE
		players at 16 years of age (2009)
53.	Jasmin Mehinovic	Canonical relation of anthropological dimensions and competitive efficiency in karate juniors and seniors in BiH (2010)
54.	Visar Ganiu	Differences in anthropometric characteristic, biomotoric, specific motor and cognitive abilities in two different models of training process applied among young adult categories of football players (2010)
55.	Agan Redzepagic	Changes and consistency of the muscle potential for strenght around the area of the shoulders and lower extremities after four weeks of systematic programmed exercise with stato-dynamic (matrix), repetitive and isometric vibration regimen of muscle tension among adolescents (2011)
56.	Aleksandar Simeonov	Comparative analysis and structure of the morphological, basic and specific motor space among students of the second year at the Faculty of Physical Education in Skopje (2011)
57.	Kalac Ruzdija	Defining the structure and impact of anthropometric, basic motor, cognitive and conative dimensions on specific motor abilities in boxers (2011)
58.	Biljana Popeska	Development of morphological and motor dimensions in male children of age 6 and 7 (2011)
59.	Tomislav Andonovski	Relations between general and specific parameters for the development of sport in the Republic of Macedonia (2012)
60.	Vladimir Vuksanovic	Comparison of changes in the strength of the muscle potential of the flexors and elbow joint extensors in adolescents after 6-week programmed exercise with modified repetitive muscle strains (2012)
61.	Aleksandar Joksimovic	Relations and differences in the anthropological space of skiers, football playlers and students (2012)
62.	Lulzim Ibri	Comparisons of the anthropological dimensions in the multivariate space between athletes and non-athletes testet with eurofrite and standard battery test (2013)
63.	Nazim Murtaj	Determining the structure of motor skills in high school students using different factor models (2013)
64.	Katerina Spasovska	Structure of the anthropometric characteristics, motor skills and psychological characteristics and their influence on the successful technical performance of the elements of sports gymnastics among the students of the first year at the Faculty of Physical Education in Skopje (2013)
65.	Aleksandar Aceski	Biomechanical status and level of development of basic motor skills among children of age seven to ten (2013)
66.	Fadil Mamuti	Factor validity of some tests for assessment of Eurofit-battery (2013)
67.	Blerim Saiti	Determination of somatotypes and their possible differences in terms of the anthropometric characteristics, motor and functional abilities of athletes from different sports (2013)

	NAME AND SURNAME	TOPIC AND DATE OF DEFENSE
68.	Haki Ismaili	Determining differences in anthropometric characteristics, motor and specific soccer motor skills in young players from 12 to 14 years in the Republic of Macedonia (2013)
69.	Hinor Kica	The effects of the sixteen-week training process for the development of the explosive force of the lower limbs among basketball players at age 16-17 (2013)
70.	Agron Ademi	Structure and differences in the morphological characteristics and physical abilities of youth with different chronological age (2013)
71.	Mimoza Skodra	Relations between morphological characteristics and situational-motor skills and social status among the students from the volleyball academy from Gnjilane (2013)
72.	Avdi Pireva	Measuring characteristics, norms and standards for assessing the motor status of youth (2013)
73.	Abedin Ibrahim	Canonical relations between morphological characteristics and basic-motor skills and their influence on the situational-motor skills in young volleyball (2013)
74.	Kenan Asani	Impact of certain programs on the prevention of poor posture in the sagittal plane at students aged 16 (2013)
75.	Jasari Vildane	Structure and differences in the morphological characteristics and motor skills of students who participate and who don't participate in sports (2015)
76.	Iseini Astrid	Impact of the explosive force on the effectiveness of the results in sprint runs in students aged 14 (2016)
77.	Kastriot Sakiri	Appearance of anxiety among athletes and non-athletes during the period of adolescence in the Republic of Macedonia (2016)
78.	Bosko Zaborski	Monitoring the exercise process by monitoring heart rate and blood lactates using an interval method with karate (2017)

	NAME AND SURNAME	TOPIC AND DATE OF DEFENSE
79.	Laureta Abazi	Comparative analysis of anthropometric characteristics, body composition and somatotypic components in volleyballs with different level of competitive success and position at which they play (2017)
80.	Bekaj Saire	Assessment of the physical and motor characteristics and their contribution to functional performance in children and adolescents with Down syndrome (2017)
81.	Ibrahimi – Kakuri Dafine	Influence of obesity and anxiety to pain in the lumbar spine (2017)

Note: A certain number of students appear twice in the tables. This is due to the fact that there is a transition between the departments of physical education and sport. Some of them, mostly from the department of sport, after graduation, continue on the department of physical education and after the differential fund of exams they graduate at the department of physical education.
